Steven King, Acting Executive Director and Secretary
Washington Utilities and Transportation Commission
PO Box 47250
Olympia, Wa 98504-7250

Dear: Mr. Steven King:

Our company, Sanitary Disposal, Inc. (G000173), operates as a solid waste company in Oregon and Washington, and as such, is required to file an annual report to your Commission on our Washington operations.

Once again, we are requesting to file a Class "C" report rather than the Class "A&B", which has been requested by the Commission.

Filing Class "A & B" report causes a financial cost to our company that is disproportionate to the amount of income earned from our Washington operations. Our gross income derived from Washington sources is \$266,035.37, which represents approximately 4.16 % of our total income and the remaining 95.84% of our income being derived from Oregon sources. Our company is locally owned and operated and does not include adequate accounting personnel to prepare the Commission report; therefore, we are forced to have our CPA firm prepare them for us, creating additional costs.

We appreciate your consideration in this matter, both past and present. We request that you review our request for filing a Class "C" report for 2016 in lieu of the Class "A&B", as requested by the commission.

Respectfully,

A handwritten signature in black ink, appearing to read "Mike Jewett". The signature is stylized and written in a cursive-like font.
