

Rail Incident Investigation Report

Docket No: TR-		Report Date:	
Railroad Owning Track:		Railroad Operating on Track:	
FRA Investigation: Yes No		Inspector:	
I. Type of Accident			
Public Crossing	Private Crossing	Trestle	Pedestrian at Crossing
Pedestrian Not at Crossing	Other (explain)		
II. Time and Location of Accident			
Date:		Time:	
USDOT Crossing No.:		UTC Crossing No.:	
Railroad Milepost:		GPS Identifier: Lat:	Lon:
Number of Tracks:		City:	County:
Road name, yard name, bridge:			
III. Conditions Surrounding the Accident			
Weather:	Clear to cloudy	Fog	Rain Snow
Road Condition:	Dry	Wet	Snow Ice
Visibility Due to Weather:	Daylight	Darkness	Unknown
Train Type: Freight	Passenger	Locomotive only	Cars only
Train Speed:			
Haz-Mat on Train: Yes	No	N/A	Remote Control: Yes No N/A
Type of Haz-Mat:			
IV. Pedestrian, Driver, or Passenger Fatalities			
Does this section apply?		Yes No	
Number of Fatalities:		If a vehicle accident, number of passengers:	
Name:			
Driver:	Passenger	Pedestrian	Age: Gender: Male Female non-binary
Pedestrian trying to get on/off train? Yes		No	Suicide: Yes No Undetermined
Alcohol: Yes	No	Undetermined	Information supplied by:
Drugs: Yes	No	Undetermined	Information supplied by:
Names of additional fatalities:			

Docket No: TR-

V. Pedestrian, Driver, or Passenger Injuries

Does this section apply? Yes No

Number of people injured:

If a vehicle accident, number of passengers:

Name:

Driver: Passenger: Pedestrian: Age: Gender: Male Female non-binary

Pedestrian trying to get on/off train? Yes No

Drugs: Yes No Undetermined Alcohol: Yes No Undetermined

Names of additional injured persons:

VI. Pedestrian Access (not at a Crossing)

Does this section apply? Yes No

Obvious signs of consistent pedestrian trespass? Yes No

If yes, describe:

Pedestrian (not at a crossing) information: Accessing public area? Yes No

If yes, describe:

Deterrents at site, e.g. fence, signs, other? Yes No

If yes, describe:

Previous collisions at or near site? Yes No

If yes, describe:

VII. Crossing History

Does this section apply? Yes No

Prior accidents at this crossing? Yes No How many?

Dates of prior accidents:

Description of prior accidents (fatalities, injuries, property damage)

Last inspection date?

Defects? Yes No If yes, describe:

VIII. Attachments

Railroad incident report? Yes No Local law enforcement report? Yes No

Coroner/medical examiner report? Yes No Pictures? Yes No

Death Certificate? Yes No Copy of most current inventory? Yes No

2018-879, Follow up, Henderson**AGENCY NAME****Monroe Police Department****Case Number****#2018-00000879****Incident Date/Time****01-16-2018**

My name is Paul Henderson and I am a Commissioned Police Detective for the City of Monroe.

On 01-16-2018, I assisted with a death investigation regarding a deceased male who was later identified as Trevor Young. I was informed that a subject was struck by a train near the entrance of Al Borlin Park and the body had not been discovered. I arrived on scene and walked to the front of the train, which was approximately half a mile from the park entrance. While walking along the train, I overheard Detective Buzzell inform officers that he located the body which was in the river. I began by taking photographs at the front of the train and working my way back to the location of the body. I also took photographs of the signs located at the entrance of the bridge which stated, "DANGER NO TRESPASSING KEEP OFF BRIDGE". There were also pictures taken of the computer monitors within the main engine compartment, BNSF employee paperwork, railroad tracks to include the sand dispersed from locomotives during application of an emergency brake, a jacket that was located between the tracks prior to the bridge, and a backpack that was located off the tracks and behind Tractor Supply.

After the train was moved, what appeared to be blood or human tissue was located on a metal railing along the bridge. There were also a few rocks that appeared to have blood splatter and human tissue on them. Just beyond these rocks and metal railing was a torn piece of clothing that was later matched up to the clothing of the deceased. Photographs were taken of all these items and I also assisted in conducting a Phenolphthalein test on the metal railing which resulted in a presumptive positive for blood.

Once the Snohomish County Sheriff's Office Dive Team began taking the deceased out of the river, I continued taking photographs of the process and of the body once it was placed on the river bank. When the Snohomish County Medical Examiner arrived, I concluded photographs with further pictures of the deceased. Patrol officers on scene recognized the deceased from prior police contacts as Trevor Young. Trevor had a large gash approximately 12 inches long along the left side of his abdomen and up to his chest area. He also had a large gash on the front area of his right leg, just below the hip area. No other injuries could be seen and the subject's clothing was not removed.

This concludes my involvement in the case.

This report was submitted from an electronic device owned, issued, or maintained by a law enforcement agency using my user ID and password. I certify or declare under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.

MB I was operating the train on a clear signal. I was using Trip Optimizer and speed was 45 mph as we went through East Monroe. As we came out of the left curve I saw something in between the rails at approximately Mile Post ^{MP} 1768.3. Shortly thereafter, I recognized it was a person laying between the rails. I immediately put ~~the~~ ^{train} the train into emergency braking. We heard the sound as the train struck the person. Our train came to a stop at MP 1768.0 at approximately 5:56 A.M. Conductor Hill then reported the accident to the train dispatcher. I am a engineer for BNSF Railway working the Seattle to Wenatchee pool. MB. The only description I have of the person is that I saw what appeared to be an ~~an~~ adult wearing a light colored heavy hat. The person was laying down and started to get up as they noticed the train approaching. Our speed of 45 mph was indicated both on the locomotive speedometer and the Positive Train Control screen. The lead engine number is BNSF 7370. MB

Sgt. Hatch,

Do you need an actual copy of the field interview report for Trevor M Young W/M 4/9/80 or just the date etc. I contacted him in the Gold Bar Rail Yard on 10/29/16 at 0920 hours, he was warned of the dangers of trespassing on railroad property and removed without incident. If you need the actual PDF of the FIR let me know.

Thank You,

Captain Tyler Nies
