To whom it may concern:

The Department of Ecology (Ecology) received Asotin County’s revised 2019 Preliminary Draft Solid Waste Management Plan with the new date ranges and request to continue with the review of the Plan via e-mail on April 11, 2018. I am forwarding the revised draft Plan for the UTC to continue their required review.

Per my January 23rd 2018 letter, and to encourage moving forward with the review process, I am subtracting 14 days from both the UTC and Ecology’s RCW required review period. Comments from the UTC should be sent within 31 days under this new timeline. Please forward copies of your correspondence with Asotin County to me, and also please inform me of the date when this item will be presented at the UTC public meeting. I look forward to receiving your input, and may be reached at:
