RE: Docket UE-18 _____ —Affiliated Interest Filing—PacifiCorp and BNSF Railway Company

Under the provisions of RCW 80.16.020 and in accordance with WAC 480-100-245, Pacific Power & Light Company (Pacific Power), a division of PacifiCorp, provides notice of an affiliated interest transaction with BNSF Railway Company (BNSF) for a license allowing PacifiCorp to install a 19.9kV overhead power distribution line along or across BNSF property in Greybull, Wyoming. A verified copy of the License for Electric Supply Line Across or Along Railway Property (License), is included with this Notice as Attachment A.

PacifiCorp is a wholly-owned indirect subsidiary of Berkshire Hathaway Energy Company (BHE). BHE is a subsidiary of Berkshire Hathaway, Inc. BNSF is also a subsidiary of Berkshire Hathaway, Inc. RCW 80.16.010 includes in its definition of “affiliated interest,” “every corporation five percent or more of whose voting securities are owned by any person or corporation owning five percent or more of the voting securities of such public service company or by any person or corporation in any such chain of successive ownership of five percent or more of voting securities.” Therefore, Berkshire Hathaway, Inc.’s ownership interest in BHE and BNSF creates an affiliated interest relationship between the company and BNSF.

PacifiCorp needs to install this overhead distribution power line for additional line capacity to the area it serves, and the installation will require crossing BNSF’s property. This transaction is related to the distribution of electric service in Wyoming and therefore does not affect Washington rates. Notwithstanding, PacifiCorp is providing this notice out of an abundance of caution to ensure consistent treatment of affiliate contracts under the requirements of RCW 80.16 et. seq.

BNSF uses standardized pricing for these types of licenses. PacifiCorp will pay \$5,050 total, which includes \$3,744 for the License, \$800 for additional processing, and \$506 for Railroad protective liability insurance. Obtaining the License is in the public interest because it allows PacifiCorp to install and maintain facilities necessary to provide electric service and to meet its obligation to provide safe and reliable electric service. Without the licenses, PacifiCorp would not be able to meet its obligation to provide electric service. As the property owner, BNSF is the only entity that can provide the License to PacifiCorp.
