Violation Information

Violation RCW Code: RCW 19.122.030
Violation Section: Failure to locate within 2 business days
Violation Description: While excavation on Lenora Street, near 2nd Avenue in downtown Seattle, our workers struck an unidentified conduit, causing damage to the line. After Verizon came out to investigate, they hooked on to some tracer wires to locate the conduit in question. The locator said that the original tech that provided the locates at that area did not appear to have known about this particular line, since the as-builts for this particular line showed that this conduit was underneath the sidewalk, not under the road that we were digging. We have extensive correspondence to Verizon regarding this subject, and quite a bit of picture documentation of the new paint marks vs. the original markings. Once we get further in the process, this documentation will be sent.
Violation Address: [120 Lenora St, Seattle, WA](#)
