Per your request. I have not spoken to Bill in a couple of weeks. I will let him know we got DOH approval.

Jeff

Jeff,

The current price for the 24-60-05 filter system, delivered to the job-site, is \$45,440 plus sales tax. The price of steel is bouncing around-up a bit today, down a little tomorrow-so we don't expect any big changes in the near term but who knows.

Thanks,

Bill

Subject: Silver Lake

Bill,

Kelly would like costing for the identified treatment system for Silver Lake. This is a 140 gpm system with 5-24" filters.

Cullen,

Can we get autoCAD files for this filter sled, so we can add these to our project drawings.

Thanks,
