Subject: [EXTERNAL] Notification of Rate Increase

Hello Robin,

As we had discussed previously, Skagit County Solid Waste implemented a rate increase at all of our transfer sites on June 3, 2019. The tonnage rate for general solid waste has increased to $97/ton for general solid waste and $96/ton for municipalities. Please see the attached resolution and approved rate schedule by the Skagit County Commissioners for further details on municipal solid waste and other materials. This is the first of a series of scheduled rate increases and we have the next one planned for June 2020.

Since the initial notification was on June 3, I will plan for the rates to increase for Waste Management on August 18, 2019, 75 days after notification per RCW 70.95.212.

Please let me know if you have any questions.

Thanks,
Margo
