Subject: Olympic Water and Sewer Water Leak Procedures

Dear Executive Director:

Olympic Water and Sewer, Inc. (OWSI) wishes to add an additional rule to the tariff that will give our customers financial relief if they experience a significant water leak.

The procedures, if a customer has a leak and has it repaired, will relieve one half of the overage cost caused by the leak, determined by examining the customer's historical usage without a leak for the same seasonal billing cycle. This will be no more than a relevant two month time period. This adjustment will be available to the customer no more than once in a twenty four month period. Proof of repair will be required in the form of repair receipts or inspection by water company personnel.

This will be a benefit to the customer by saving them financially and will give them incentive to repair leaks that will help conserve water resources.

This proposed filing will not increase revenue.

Please call me at (360) 437-2101 if you have any questions. Our email address is 'owsi@portludlowassociates.com'.

Sincerely
Greg Rae
Vice President
Olympic Water and Sewer, Inc.
