Please tell us about your experience and knowledge of transportation or solid waste, including knowledge of motor carrier driver and equipment safety requirements:

Have diverted many thousands of pounds of materials from landfills that was not identified as recyclable by traditional solid waste companies. We have a perfect safety record while doing so and have worked collaboratively with the King County Department of Public Health to ensure safe and healthy operating procedures are being followed.

Phone Number: (206) 200-9990 Fax Number: N/A Email: edebookst@gmail.com

Describe the immediate and urgent need for the requested service:

First of all, I'm in a wheelchair. I can't drive around from place to place getting rid of my stuff the right way. I am intense about recycling. My kids have called me Mrs. Green since they were young.

The amount of plastic film I accumulate in two weeks is astonishing. I am thrilled to be able to recycle it and I hated just throwing it away. And the fact that Ridwell picks up threads and batteries and everything else. I also find huge value in the creativity of the rotating categories for donation. Those are things I can't do myself!

If there is an existing company providing the service in the territory, please indicate the existing Company's name (if applicable): No

Explain why the current company is not able to provide you service: Not applicable

What date(s) do you need the service? Immediately

What do you need transported? Plastic film, Styrofoam, light bulbs, batteries, threads, and categories for donation

Number of days, trips, loads: Every two weeks

Transported from: My home To: Recycling and reuse partners
