October 29, 2020

Washington Utilities and Transportation Commission  
621 Woodland Square Loop SE  
Lacey, WA 98503

To Whom It May Concern:

VanderYacht Propane, Inc. is asking for a rule exemption of both WAC 480-60-040 requiring overhead clearance of 22 feet 6 inches and WAC 480-60-050 requiring a side clearance of 8 feet 6 inches. Onsite measurements resulted in side clearance of 7 feet 11 inches and an overhead clearance of 15 feet 9 inches.

The reason for the requested exemption is to allow for a new propane rail tank car off-loading facility located at 14660 Ovenell Rd, Mount Vernon, WA 98273

Respectfully yours,

Greg Bowlin

General Manager  
VanderYacht Propane
