The purpose of this filing is to add language in the tariff for several services and features that indicates that the service may or may not be available depending on the type of facilities (Copper or Other) that are used to provide the service. The Customer Notice was reviewed by Commission Staff and then mailed to affected customers on January 29, 2021. Additionally, there are several services that have been removed from the tariff due to no customer activity and the Company no longer wishes to offer the product(s).
