Pedestrian Not at Crossing	Other (explain)		
<b>II. Time and Location of Accident</b>			
Date:		Time:	
USDOT Crossing No.:		UTC Crossing No.:	
Railroad Milepost:		GPS Identifier: Lat:                      Lon:	
Number of Tracks:		City:                      County:	
Road name, yard name, bridge:			
<b>III. Conditions Surrounding the Accident</b>			
Weather:	Clear to cloudy	Fog	Rain      Snow
Road Condition:	Dry	Wet	Snow      Ice
Visibility Due to Weather:	Daylight	Darkness	Unknown
Train Type: Freight	Passenger	Locomotive only	Cars only                      Train Speed:
Haz-Mat on Train: Yes      No      N/A		Remote Control: Yes      No      N/A	
Type of Haz-Mat:			
<b>IV. Pedestrian, Driver, or Passenger Fatalities</b>			
<b>Does this section apply?</b>		<b>Yes      No</b>	
Number of Fatalities:		If a vehicle accident, number of passengers:	
Name:			
Driver:	Passenger      Pedestrian	Age:	Gender: Male      Female      non-binary
Pedestrian trying to get on/off train? Yes      No		Suicide: Yes      No      Undetermined	
Alcohol: Yes      No      Undetermined	Information supplied by:		
Drugs: Yes      No      Undetermined	Information supplied by:		
Names of additional fatalities:			

Docket No: TR-

**V. Pedestrian, Driver, or Passenger Injuries**

**Does this section apply? Yes No**

Number of people injured:

If a vehicle accident, number of passengers:

Name:

Driver: Passenger: Pedestrian: Age: Gender: Male Female non-binary

Pedestrian trying to get on/off train? Yes No

Drugs: Yes No Undetermined Alcohol: Yes No Undetermined

Names of additional injured persons:

**VI. Pedestrian Access (not at a Crossing)**

**Does this section apply? Yes No**

Obvious signs of consistent pedestrian trespass? Yes No

If yes, describe:

Pedestrian (not at a crossing) information: Accessing public area? Yes No

If yes, describe:

Deterrents at site, e.g. fence, signs, other? Yes No

If yes, describe:

Previous collisions at or near site? Yes No

If yes, describe:

**VII. Crossing History**

**Does this section apply? Yes No**

Prior accidents at this crossing? Yes No How many?

Dates of prior accidents:

Description of prior accidents (fatalities, injuries, property damage)

Last inspection date?

Defects? Yes No If yes, describe:

**VIII. Attachments**

Railroad incident report? Yes No Local law enforcement report? Yes No

Coroner/medical examiner report? Yes No Pictures? Yes No

Death Certificate? Yes No Copy of most current inventory? Yes No

Other (describe):

**Date:** Friday, January 15, 2021 3:15:03 PM

---

Please see the below information involving a railroad incident that has been reported to the State Emergency Operations Center (EOC). Please reply to this email upon confirmation of receipt. Thank you

Name of the Railroad(s) involved: BNSF

Reporting Party Name, Position and Contact Number: Cisco Sanchez, Service Interruption, 817-593-6823

Time and Date Called in to the State EOC: 1505 / 01-15-2021

Time and Date of the Event: 1455 / 01-15-2021

Mile post and/or Address of Event: MP 31.9X Seattle Subdivision, 131 West Main Ave Puyallup 98371 - Puyallup Sounder Station

Circumstances of the Incident: AMTRAK Southbound into station struck a teenage male who was sitting on the platform. Train hit their legs.

Number of Injuries and/or Fatalities: one injury, status unknown, stayed on the platform

Type of Rail Cars Involved (tank, hopper, box, flat, etc.): Passenger Train

Type and Amount of HAZMAT spilled: No Hazmat

Any Additional Details That Will Assist in Identifying the Necessary Response: Local emergency medical services responding

Name and Phone Local POC: Cisco Sanchez, Service Interruption 817-593-6823

Railroad Incident Number: 21-0248

State EOC Incident Number: 21-0248

## Investigative Information

Means:		Motive:	
Vehicle Activity:		Direction Vehicle Traveling:	

Synopsis:	
-----------	--

Narrative:	<p>On 1/15/21 at approximately 1456 hours, I was working uniformed patrol as unit Puyallup 355, and driving a marked patrol vehicle.</p> <p>On this date and time, I responded to a call of train that had hit a person near the Sounder station. I arrived at the location and observed an Amtrak train 505 stopped near 7th and Stewart. I walked towards the train platform from 5th and observed a conductor standing on the north side of the train tracks. I contacted the conductor, who identified himself as Eric C. Starr. Starr stated as he they were passing through the Sounder station platform; he heard the engineer sound the horn several times. Starr stated this is done for an obstruction or someone on the tracks. Starr stated as they passed through the station, he felt several bumps. Starr did not observe the actual collision. Starr identified his train as Amtrak 505 and stated it was traveling towards Eugene, Oregon with 81 passengers. I had Starr complete a statement form for the incident. While I was taking this statement other witnesses to include the engineer and two bus drivers gave statements to other officers on scene.</p> <p>After I finished with the statement, I walked further towards the station and observed a deceased male on the north side of the tracks. The male subject was unclothed and had severe injuries and was obviously deceased. I walked towards other officers that were near the platform and observed the area where the subject was at before being hit by the train. I observed several scuff marks on the platform along with a splatter pattern on the north side of the tracks and platform area. I walked from the impact area towards where the train was stopped and marked out several body items.</p> <p>Central Pierce Fire arrived on scene and gave the time of death for the male subject 1509 hours by Dr. Barnhart at Good Sam Hospital.</p>
------------	--

I contacted Sound Transit security after finding out that video from the platform showed the incident. I called and talked to security in Seattle who stated that they had video of the incident but would not be able to have it ready until Tuesday. I also contacted Pierce Transit security who advised that cameras were on in the two buses that were stopped at the station. Pierce Transit stated they would be able to get the video by Tuesday as well. Both parties were given the case number for follow up. I was advised that the video showed the male subject getting off the 758 bus and walking towards the train platform. The subject then sat down on the yellow striping, dangling his legs over the tracks, where he was struck by the train.

I took photos starting at the station, the impact area, the debris field and moving towards the area where the train was stopped.

Before the medical examiner arrived, we attempted to identify the deceased subject via AFIS fingerprint reader with negative results. A search of the subject's clothing rendered no identifying information. The deceased party will be entered as John Doe.

I stood by and waited for the Medical Examiner. Once the Medical Examiner arrived, I walked the tracks with other officers and the medical examiner to locate and pick up body items.

After the body was picked up and loaded up, Medical Examiner J. Pondry gave an NJA #21-0732. I took down the crime scene tape around the train station scene and at the crossing by 5th. I then responded back to the station to complete this report and uploaded photos.

**Investigative Information**

Means:	Motive:
Vehicle Activity:	Direction Vehicle Traveling:

Synopsis:
-----------

Narrative:	<p>On 01-15-21, at around 1456 hrs, I responded to about the two hundred block of W. Stewart for a reported train vs pedestrian injury collision which had occurred there. I arrived in the area and I observed an Amtrak train stopped at about 7th St NW/W. Stewart and I suspected that this was the involved train. I responded to the train (this was train 505 and the engine was 90230) and confirmed that this was indeed the involved train. I spoke with the conductor who sent me to the engine to speak with the engineer. The engineer (Russell) told me he observed the fellow sitting on the train platform sticking his knees out towards the track.</p> <p>Russell told me that he kept activating the horn for the train (Russell estimated that he continually activated the horn from about a mile away.) Russell told me that the fellow on tracks (he described him as wearing all black) paid no attention to the train approaching and he did not react to any of the train horn activations.</p> <p>Russell told me that the fellow on the platform was looking down towards the ground and he didn't know if the fellow had headphones in or was reading. I asked him if the fellow looked like he wanted to commit suicide and Russell said he was unsure saying that the fellow didn't jump into the train but he made no attempt to avoid it either. Russell said the train impacted the fellow and Russell knew based on his training and experience that this fellow had died.</p> <p>Russell provided a voluntary handwritten statement with a signed affidavit and he fully cooperated with the investigation. Russell told me that the right side of the engine impacted the fellow and he suspected that the force of the impact threw the fellow into the rest of the rail cars.</p> <p>I then assisted other units looking for body parts and identifying witnesses. I tried using my fingerprint scanner on both fellow's index fingers to determine who he was. The fingerprint on his detached arm looked worn and was obviously covered in flesh and blood and the fingerprint on the hand still attached to the arm that was still attached to the body was of better quality though it was also worn. I tried submitting the prints four times but I didn't receive any fingerprint returns. For further information please see the other officers' reports.</p>

Synopsis:

Narrative:

On 1/15/2021, I responded to 200 BLK W Stewart for a train vs pedestrian collision. Upon arrival, I did not see anything from that area and was directed further to the west. I later walked onto the tracks from 5th ST NW. While walking, I observed the deceased, articles of clothing and fragments (bone/body tissue etc).

I remained in the general area of deceased and platform. I noticed the debris pattern on the platform and onto the tracks. Both went to the west of the location.

I used a LIDAR unit to measure the approximate area of impact to the rear of the train. The distance from where the train (rear locomotive) was stopped was 1347ft.

Sgt Pihl arrived for MCRT portion of the call. He directed me and Officer Kenyon to contact the train. We did and I remained outside. Officer Kenyon contacted the engineer. I photographed the front of the train as it sat. I walked along the left side of the train (if facing). I photographed the train as I walked down the side. I walked three to four cars in photographing. I later loaded the images to case images.

I documented the train information. The front locomotive was #90230. The cars were in the following order, 2-#58006, 3-#54504, 4-#54510, 5-#54574, 6 #54500 and rear locomotive #1406. The engineer estimated the weight to be around 650 tons. I was told that the train number was 505, from Seattle to Eugene.

I returned to the train platform. I learned that the deceased had been sitting on the edge of the platform. There was a yellow area and I notice it was marked WARNING STAY BEHIND YELLOW LINE. I also photographed the markings and later uploaded the photos to case images.

I contacted a driver (Strong, Ronnie R) for Pierce transit. The driver completed a handwritten statement. A synopsis of the statement was the guy got on my bus at Second and Jackson wanted a ride to Puyallup. When we got to Puyallup it took me a while to wake the guy up. When he woke up, he went to the plate form and set down with his feet over the edge. I was going to try to go over and get him off the track. Then I heard the train coming and I turned away as the train approached. He was a white male probably in his 30s. See Strong's statement for exact wording. I passed that statement to Officer Kenyon.

I walked the tracks with several others. We collected the body fragments from the deceased. This ended my involvement at the scene.

Synopsis:	
-----------	--

Narrative:	<p>1456 officers responded to the Pierce Transit center located at 202 W. Stewart for a pedestrian v. train collision. Initial responding officers determined that the pedestrian was deceased. The unidentified victim was located to the west end of platform. Upon arriving I was tasked with identifying possible evidence and assisting with securing the scene. I located biological debris consisting of skull fragments, brain matter and other tissue on platform into parking lot. Officer lien and I cordoned off area of debris field to include bus 9207.</p> <p>Officer Lien and I then walked the tracks from platform to approximately 700 block of W Stewart (front of train). we marked /located pieces of the victim and possible personal items. I observed blood and pieces of clothing on the side / under the train. Observed a possible impact mark on the right side edge of the plow on front of train. Officer Barry had already photographed the train and obtained a written statement from the engineer. The Engineer stated the victim had been seated on the platform with his legs dangling between the tracks and edge of platform. The subject did not appear to have been wearing head phones but did not apparently respond the the warning horn from the train.</p> <p>Upon returning to the platform area, I checked with Pierce Conservation District building to see if there was any video available from their building but found the building to be closed. Pierce Transit buses 9207 and 9106 were parked in the bus stop area blocking the view of the impact area from other neighboring businesses. There are several cameras mounted on poles along the platform. I later submitted a request to Sound Transit for video footage from the buses and platform cameras.</p> <p>Sgt. Phil and I checked the clothing near the body but found no identification. I also walked the parking lot, checking the bushes and nearby shelter areas for personal belongings possibly associated with the victim but found none.</p> <p>When video from the buses and platform is obtained I will submit to evidence / case.</p> <p>Nothing further.</p>

Synopsis:
-----------

Narrative:	<p>On the listed date and time, I was contacted via phone at 1500 from Sgt Pihl. Sgt Pihl informed there was an accident in the city with a train vs pedestrian. I responded to the scene. Once on scene, I was advised by Sgt Pihl to contact the conductor of the train with Officer Nelson. I responded to the 1200 block of Stewart and contacted the conductor later identified as Russell Bates. I asked Bates if he was doing ok. Russell assured me he was fine. I asked Russell about the lights and horn being activated and asked if the crossing arms and lights were working as well. Bates stated that every gate he passed was working and his lights and horn were being activated on the train. I asked Russell what he saw prior to the accident. Russell stated he observed a male sitting on the side of the platform with his legs hanging over. Russell stated he was sounding the horn and there was absolutely no reaction by the male subject. Russell stated it was to late and the subject was struck by the train. I asked Russell if he was the only conductor on the train. He advised me he was. I was later informed that there were 81 passengers on the train at the time of the incident and that the train was around 650 ton. I asked Russell if he would provide me with a detailed statement. Russell stated he had already provided a statement to Officer Barry.</p> <p>While I was contacting Russell, Officer Nelson was taking photos of the train and gathering cart numbers off the train. After the investigation of the train and Russell, I was advised by Sgt Pihl, Russell was advised he was free to leave the scene. I responded back to the original scene where, I was contacted by Sgt Pihl, who informed me we were just waiting on the M.E. to arrive. Sgt Pihl provided me with the written statements, which were sent to records for this case. The M.E. arrived on scene and conducted their investigation. After walking the scene and taking photos the M.E. and several units from PPD assisted in picking up body parts. The body was later packaged and placed on the gurney. Fire later arrived on scene to conduct a wash down of the platform. After helping other units tear down the do not cross line, I cleared the scene. This concludes my involvement with this case.</p>

Synopsis:

Narrative:

On 1/15/21 at approximately 15:00 hours, I was contacted at home by Sergeant Melzo via cell phone regarding a death investigation. I was told the incident involved a train versus pedestrian incident that just occurred. After calling Officer Kenyon and Officer Nelson to assist me and respond for this investigation, I responded to the scene to fill-in as the Traffic Supervisor who was out of town and unable to respond.

I arrived at the Sounder Transit station located in the 300 block of West Stewart Ave. The incident took place on the North side of the railroad tracks. I contacted Sergeant Blackard who shared the details of the incident known up to that point. I noticed a section of the Sounder pedestrian platform deck on the West end of station that was taped off with evidence tape indicating where this incident began. Two Sound Transit buses were within the tapeline, and I learned both drivers had been with these busses when the incident happened. In fact, one of the buses ended up being the bus that transported the male, now deceased, from a downtown Seattle bus stop on Pike Street to our location at the Puyallup train station. Please see Officer Nelson's interview with this bus driver for this detailed information in his supplement and statement taken from this bus driver.

Of importance in the bus driver's statement was the fact that the deceased pedestrian had been on the bus and appeared, "out of it", or impaired to the bus driver believed the male may be on drugs and was nodding off while seated on the bus ride to Puyallup. The male got off the bus and sat down on the edge of the pedestrian platform in the seated position within the painted yellow restricted area. Per statements collected from the train operators, as well as the bus driver's themselves, the male victim was putting his legs out straight in front of him down onto the gravel space between the North tracks and the platform area. The male was reportedly slumped over forward while still in the seated position, holding his head sunken downward looking into his lap and paying no attention to the warning bells, blaring train horns and warning devices from the operators of the quickly approaching.

I later obtained a video still-shot photo from the train video from Burlington investigators that showed the male seated on the platform. This was the last image taken from the vantage point of the front engine of the Amtrack train and was part of a full video and other platform video, train video, and one of two bus frontal videos from each Sounder Transit bus will need to be viewed at a later time for full understanding of the male victim's actions leading up to impact. It was clear when the 65-ton train traveling at approximately 79-mph approached and made contact with the male, a violent impact occurred resulting in the male's obvious immediate death.

Within the image obtained, I noticed there was a brown object sitting next to him. I later located this bag, which appeared similar to a tent holding bag sometimes given out to transient subjects. No contents of the bag were located in the debris field or along the tracks.

After forming several assignments for officers still at the scene, I assisted Officer Miniken in inspection of the scene. I noticed the biological debris field spanned to the northwest area of the pedestrian deck area of the train station. There was a visual spray of blood and biological debris on the sidewalk area of the loading deck noting where the start of the impact occurred with the train. Bone fragments and biological

debris spanned across the walking area, sidewalk, front of the buses parked nearby and out into the parking lot. The deceased's body was then located in the gravel area on the North set of tracks further to the West of the impact point and had obviously sustained severe trauma and dismemberment. The left arm/hand at the forearm, lower left leg at the knee area in addition to the lower right foot were now missing. The rear of the victim's head was also missing along with the skull within and contents. The only clothing that remained on the deceased was a t-shirt pulled up at shoulder level. Other clothing was along the tracks and within the location to the West of the impact site.

I had Officer Miniken check each article of clothing for possible contents, identification, and other evidence that may help identify the male. I located a pair of sweatpants. I checked inside a pocket to find a wadded-up Starbucks bag. The bag had a receipt of purchase stapled to the outside. The receipt showed this was item 3 of 4 purchased at 11:32:07 AM on today's date from store #3343 from register one and was for an "Old Fashion Donut". This time occurred just a few hours before this incident. I had Officer Nelson check with local Starbuck's stores in Puyallup, but these were ruled out, however at this time the exact store location is unknown. Seattle store areas near Pike street should be checked to verify the store number if any of these may match.

I also asked Officer Barry to attempt to use his fingerprint scanning device to check the male decedent's fingertip for possible print identification so next-of-kin notifications could be made. Officer Barry check fingertips from both hands, which returned with no results. The fingertips on the left hand were worn down, and not discernable by the device.

I took several digital images while I supervised this investigation and while statements were collected by Officers. I asked Officer to canvas the area for other business front video while Officer Nelson and Officer Kenyon collected statements from the Amtrack conductor and engineer, along with documentation of the manifest, number of cars, approximate weight and speed of the Amtrack train boarded with 81 passengers destined for Eugene, Oregon. Statements were also collected from the two bus drivers from the South Sound busses.

The Pierce County Medical Examiner's Office responded to the scene for collection of the victim and independent investigation. Medical Investigator Jennifer Pendray advised positive victim identification efforts would continue by their office where more fingerprint and medical searches would continue. At this point, it appeared the male may possibly, based on the limited information known, be a transient subject that came to the Puyallup Station from the downtown Seattle area of Pike Street, but little else is known or can be confirmed right now.

I requested Central Pierce Fire respond to our location for a bio-hazard wash down of the sidewalk, loading platform area, and accompanying parking lot and busses involved. I later downloaded digital images of the scene to case images. It should be noted I took several signs at the train station regarding "suicide prevention" and other warning signs and painted areas clearly indicating where safe areas for the public to remain were all clearly disregarded by the decedent. It is unknown at this point if the victim had suicidal ideation or levels of impairment that contributed to this unfortunate scene.

This ended my involvement with this investigation.

Synopsis:	
-----------	--

Narrative:

On 1/20/21 at approximately 12:15 hours, I received a phone call from the Pierce County Medical Examiner's Office regarding this case and the positive identification of the victim decedent in this train versus pedestrian case.

The ME's office advised the male had been positively identified as Austin A. Burdick (8/15/93) through FBI fingerprint results confirmed. Next-of-kin and/or family notification had not been made yet and would be handled/completed by the Pierce County Medical Examiner's Office, per this investigator.

I checked local arrest/report history with Burdick showed one previous arrest by Puyallup PD on December 20, 2020 where he was contacted as a disorderly pedestrian and refused to remain at the scene resulting in his arrest. There was a current booking photo from this jail booking from this arrest, and I called Community Service Officer Pearson who works with the daily local homeless population in Puyallup. Burdick was not someone that he has assisted with local services or encountered on a routine bases since the first of this year 2021.

ME's office advised an autopsy was done on the body and that toxicology results would be pending, but likely not available for 1-2 months. I requested the Pierce County ME's Office send a full copy of their case report and toxicology findings once received so this case can be reviewed and possibly closed at that time. Burdick was alone at this time of death, and undetermined if this death was suicide or accidental or if this will help to be determined in any way by the toxicology results and/or other findings with family by the ME's office such as prior mental health related issues present.

Nothing further at this time.

Narrative:	<p>On 1/25/2021 I was contacted by DPS Records Supervisor Marcelia advising that the footage from bus 9207 was available. I picked up the recording and upon returning to the Police Department, watched the footage. There is a view from the forward facing camera (#1). As the bus pulls in the victim is observed seated on the warning area on the platform with his legs towards the tracks. As the train horn can be heard as the train approaches (1454 hrs). It does not appear the victim acknowledges the train or makes any attempt to get up and move away. The train can be seen striking the victim and dragging him out of view of the camera.</p> <p>I submitted a request to Sound transit for footage from the platform / station but it is still pending.</p> <p>After reviewing the footage I turned the Video over to MCRT Officer Kenyon.</p> <p>Nothing Further at this time.</p>

Synopsis:

Narrative:

On 2/2/2021, I received a DVD from Officer Miniken that he had received from Pierce transit. The video that was obtained was from a train vs pedestrian who was sitting on the platform at the transit station. I later placed the DVD into evidence in the Puyallup Police department property room.

On 2/3/2021, Sgt Obermiller, Officer Yancey, and I responded to the Amtrak building in downtown Seattle. We arrived on scene and contacted an employee of Amtrak. He had access to the videos from the trains. The employee pulled up the video on his computer for us to watch. I noticed during the full duration of the video it appears that the train horn was working properly and being used prior to striking the pedestrian. As the train was approaching the transit station, you could hear the horns blowing and observed a male subject sitting on the platform of the transit station. It appeared that the male was sitting on the platform with his head hung downward. As the train got closer to the subject, the subject never lifted his head or never moved or indicated that he perceived the approaching train. It did not appear to be a suicide by the demeanor of the subject. I believe this because in both the videos from Sound Transit and Amtrak, the subject never made any specific movements toward the train to indicate this was a deliberate suicidal act. The subject appeared to be seated on the edge of the platform with no apparent knowledge of the impending train. Prior to leaving, I took a still shot of the train just before the train struck the pedestrian, which will be added to the case. We did not get a copy of the video due to being proprietary viewer.

Synopsis:	
-----------	--

Narrative:	<p>On Monday, March 8, 2021 at approximately 06:00 hours, I received mail notification from the Pierce County Medical Examiner's Office and a copy of the Death Investigative Report and Postmortem Examination Report regarding this case and the death of Austin A. Burdick. The reported enumerated several blunt impact injuries to the body and listed the cause of death as "Multiple Blunt Impact Injuries" and a Manner of Death as "Accident" as completed by Dr. Allison Hunt, M.D. Associate Medical Examiner. No toxicology report was included with the report at this time. I sealed and initialed this medical record and submitted this to records for this case.</p>

My name is RUSSELL G. BATES

My Date of birth is: 07/06/1961

I reside at 11431 SE 89th PLACE, NEWCASTLE, WA Home telephone (206) 930-9303

CITY NEWCASTLE Message telephone (SAME)

STATE / ZIP WA - 98056 Work telephone (206) 382-4134

I am employed at AMTRAK, SEATTLE, WA

### My narrative of facts:

I am the locomotive engineer operating Amtrak train # 505. As our train approached the Puyallup Sounder commuter station, south of Meridian Street at 79MPH with train horn sounding and headlights on bright, I observed a teenager or young adult in dark clothing sitting on the edge of the platform with legs over hanging south of the track. He did not respond to sounding of the horn, and seemed unaware of the train's approach, and appeared to make no effort to move clear, and was struck by the right-front corner of the locomotive. The brakes were applied in emergency (Sully applied), and the front of train came to a stop at 8th St. NW & Stewart. No one onboard the train was hurt.

The above is a true and correct statement to the best of my knowledge. No threats or promises have been made to me nor any duress used against me. I make this statement under penalty of perjury.
