COMMISSION

RSB Logistic Services, Inc., "RSB", hereby requests an exemption to rule WAC 480-14-250 (1).

The reason for this request is on the bases of the absence of WA admitted insurers will to provide insurance coverage for RSB. Admitted insurers after reviewing the underwriting characteristics of RSB and evaluating to provide insurance have uniformly declined coverage, this has lead to the need to obtain coverage from a non-admitted insurer in the state of WA, Prime Insurance. The primary underwriting reasons for the declination of admitted markets as communicated by our insurance broker at the time, Lockton, and new broker, JKJ, are as follows:

- Type of product hauled
- Size of Fleet
- State of domicile
- Radius of operations
- Hardened insurance market conditions

If RSB is not approved for this exemption we will face extraordinary hardship in shutting down the business and losing clients and customers until an admitted insurer would change their appetite to offer coverage for RSB.

Please find the contact information of our broker below if for information:
