AFFILIATED TRANSACTIONS

Affiliated Transactions

Oregon Telephone Corporation is the managing company for Skyline Telecom Inc. The business office is located in MT Vernon, OR. All billing, customer support, technical support and financial reporting is performed by the staff of Oregon Telephone Corporation. All labor expenses are direct coded to Skyline by affiliated companies. A management agreement is in place which identifies how expenses are allocated between companies.

Service orders (new installs or changes) or trouble tickets are assigned to employees at either Oregon Telephone Corporation or North-State Telephone. These same technicians also assist with construction projects. These employees also direct codes labor and expenses to Skyline Telecom.

EXHIBIT 3

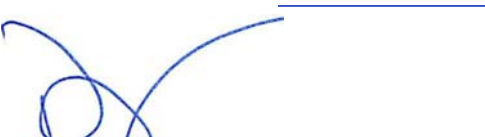

Broadband Plan

Skyline Telecom Inc. offers broadband services to both of its exchanges, Silverton and Mt Hull. Skyline incurs considerable monthly costs to maintain the backbone connection to the world for each of these areas. In fact, Skyline's broadband operations operate in a net loss position each year due to these costs. Skyline however is committed to continuing to provide quality broadband service to its subscribers and continues to maintain all plant necessary to provide these necessary services.

Beginning in 2020, Skyline engineered a three-phase fiber to the home build for the Mt Hull exchange. This allows for not only a considerable increase in broadband speeds, but also improves the reliability of service when compared to aging copper. Phase 1 was completed in 2020 for a total of \$89,665. Seventeen customers were converted to fiber.

Phase 2 for the Mt Hull exchange will occur in the third quarter of 2021 and will bring fiber to the home to twenty-five additional subscribers. Phase 3 is planned for 2022 and brings 9 additional subscribers fiber to the home.

Skyline could offer speeds up to 1Gig for these fiber subscribers. Maps as well as costs for Phase 2 and preliminary costs for Phase 3 have been included as part of this exhibit.
