Washington Utilities and Transportation Commission
621 Woodland Square Loop SE
Lacey, WA 98503

Subject: Waste Management – Brem-Air, a division of Waste Management of Washington, Inc.(G-237);
Tariff #20

Dear Ms. Maxwell:

Enclosed are revised tariff pages Title, 2 and 24 and the addition of revised Appendix B to the above-referenced tariff. The primary purpose of the revisions to these tariff pages is to reflect the expansion of the residential yard waste collection service territory. This expanded service territory is reflected in the areas colored in green on Appendix B. It is estimated that the expansion of the yard waste service territory will allow an additional 2,000 customers to be able to subscribe for this optional service. Since the expansion of the yard waste service territory does not either result in an increase or decrease to our current tariff rates, we are requesting an effective date of January 1, 2022 to implement this new service to these customers. Customers will be notified of this new service option as either an insert or message on their next bill.

Enclosed for your review is Chapter 9.48 of the Kitsap County Code which reflects the expanded yard waste service territory. If you have any questions or need additional information, please contact me at (206) 954-3831.

Very truly yours,

Michael Weinstein
