Lacey, WA 98503

Subject: Pelican Point Water Company  
Petition to be removed from Regulation and Cancel Tariff

Dear Ms. Maxwell,

Pelican Point Water Company petitions the Commission to be removed from regulation under RCW 80.04.010 (30) (e). Recently Pelican Point Water Company sold all of its assets involving water system operations and customers to another water utility company. They are operating under the name of Cascadia Water, LLC. Pelican Point Water Company has determined that we no longer fall under the regulatory guideline requirements established by the Commission due to the number of customers serviced or the customer revenue thresholds. (WAC 480-110-255)

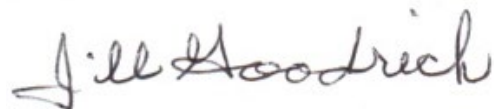

This WAC allows a water company to be removed from regulation if the number of customers falls below one hundred or the average annual revenue per customer falls below \$557. Attached are the following documents:

1. Copy of Customer notice about our recent transfer of assets to the new company that we mailed on October 3, 2021.
2. Copy of the recent Commission order approving the sale and transfer of our water system to the new owner. This was approved by the Commission under docket number UW-210564.

Again, we are petitioning to be removed from regulation and our current tariff canceled. We will be updating our records and will file our final annual report shortly for the period of time that we were under regulation, January 1, 2021, to August 31, 2021.

We understand there is a review period and our petition may become effective at the end of that time. Please call me at (509)760-3091 if you have any questions.

Sincerely,

Jill Goodrich  
Owner Pelican Point Water Co.
