RE: Sanitary Service Company, Inc. G-14 –Item 230 pass-through disposal fees and rates for WUTC residential and commercial garbage collection services.

Dear Secretary Maxwell:

Enclosed are revised pages to Solid Waste Tariff No. 9 for Sanitary Service Company, Inc.

The proposed revised tariff pages contain increases due to a rise in disposal fees for Item 230 pass-through fees and disposal fee components only, for WUTC commercial garbage collection services. The requested rate increases are necessary to recover increased disposal fees imposed upon SSC at the Republic Services Transfer Station. The notification is included with this filing.

SSC is only requesting revisions to its tariff rates to recoup disposal fee component increases. This filing does not ask for any changes to the service component of customers' rates for the company's performance of solid waste collection services.

Commercial customer revenue resulting from the tip fee increases at the third-party disposal site would increase by approximately \$97,000 and the proposed rates would go up between 0.42% and 1.02%. There is no impact to pass through disposal fee customers for the Item 230 pass-through increase, as we do not currently haul pass through tonnage to Republic Services. The effective date of these proposed tariff revisions is August 1, 2022. Work papers showing the calculation of the disposal fee increase are enclosed.

In accordance with WAC 480-70-271(2), to the extent the Commission approves the rates reflecting the disposal fee, affected customers will be notified of this rate increase on their next regularly scheduled billing.

Please feel free to call me at (360) 527-9783 if you have any questions about this filing.

Sincerely,
 Sara Campbell, Controller
