**Re: Notification Regarding the Corporate Conversion of NCI Data.com, Inc.,
Resulting in a Name Change to NCI Data.com, LLC**

Dear Director Maxwell:

NCI Data.com, Inc. ("Licensee") and Concept Communications, LLC ("Transferee") (together with Licensee, the "Parties") notify the Washington Utilities and Transportation Commission (the "Commission") of the conversion of Licensee from a corporation to a limited liability company, resulting in a name change (the "Conversion"). In connection with the Conversion, the Parties are also submitting a separate letter notifying the Commission of (1) the insertion of a holding company, NCI Data.com Holdings, LLC ("Transferor"), above Licensee, and (2) a transfer of control of Licensee to Transferee (the "Transaction"). Since Commission action is not required for the holding company insertion, the Conversion or the Transaction, the Parties submit this letter for informational purposes.

In support of this filing, the Parties provide the following information:

Description of the Parties

A. Licensee

Licensee, a Washington corporation, was founded in 1997 by John P. Andrist, who continues to own approximately 90% of Licensee. Licensee's headquarters are located at 626 Okoma Drive, Omak, WA 98841. Licensee currently operates in Washington as a provider of Voice over Internet Protocol ("VoIP"), wireless Internet services, fiber network services, and other general connectivity services. Licensee is registered with the Commission as a competitive telecommunications company pursuant to authority granted in Docket No. UT-000400 on April 12, 2000.

B. Transferee

Transferee, a Washington limited liability company, is headquartered at 412 S. Union Ave., Newport, WA 99156. Transferee is 95.8% owned by MiFiber Holding, LLC ("MiFiber Holding"), a Delaware limited liability company. No individual or entity holds 50% or more of MiFiber Holdings.

The managers of MiFiber Holdings' Board are Karnig Porter, a U.S. citizen, and Louis-Alexandre Pfyffer von Altishofen, a Switzerland citizen. Transferee provides cable and Internet services in Newport, WA and Oldtown and Priest River, ID.

Description of the Multi-Step Transaction

Pursuant to a Purchase Agreement and for purposes of the Transaction, Mr. Andrist (and another shareholder holding approximately 10% of Licensee) will cause the formation of Transferor, a Washington limited liability company, and the transfer of all issued and outstanding stock in Licensee to Transferor, which will result in Transferor becoming the direct parent of Licensee. Then, Licensee will be converted to a Washington limited liability company, and the converted entity will be the same entity that existed before the Conversion for all purposes under Washington law. The company's new name will be NCI Data.com, LLC. The company requests that the Commission update its records, including Licensee's Certificate, to reflect the conversion and resulting name change.

Following completion of the insertion of Transferor as the parent company of Licensee and the Conversion, Transferee will acquire 100% of the Units of NCI Data.com, LLC from Transferor. As a result, NCI Data.com, LLC will become a wholly owned direct subsidiary of Transferee.

Public Interest Considerations

The Conversion is in the public interest. The converted entity will be the same entity that existed before the Conversion for all purposes. The Transaction will have no adverse impact on customers of the Licensee, will be transparent to customers in terms of the service they now receive, and will not alter the manner of service delivery or billing. Moreover, NCI Data.com, LLC will continue to provide service pursuant to existing contracts and tariffs, as applicable, subject to change in the ordinary course of business and in accordance with applicable law. The only change immediately following the consummation of the Transaction from a consumer's perspective will be the new upstream ownership of the Licensee. The Transaction will enhance, and not diminish, customers' welfare and is in the public interest.
