Hi, after significant hardship and stress and a failed operation that occurred after I opened two locations in the U.S. southwest, I have retired from moving (earlier this year) and forgot to request that this permit be canceled.

My employees were absorbed by another company, and they also have the last 3 trucks I had when still in operation.

The pandemic absolutely wrecked my once success business model and I apologize but this was nothing I could keep control of. Best regards,

Ken Wilson
