 State Of WASH.  
 UTIL. AND TRANSP.  
 COMMISSION

4 DEES LOG TRUCKING is requesting an exemption from WAC 480-250(1) (A). We are a log trucking company based out of Oregon. We haul logs to mills in Washington. We require a Common Carrier Permit in order to haul logs to the mills. Without an exemption, our Common Carrier Permit would be canceled. That would impact our business and finances tremendously. We would be forced to search for different insurance companies which would cost us a lot more money. We would also be forced out of jobs if our Common Carrier Permit is canceled.

4 DEES LOG TRUCKING was established in 2014. We have maintained insurance standards without lapse. Our insurance company is Progressive. Progressive writes their policy's through Progressive's Artisan Insurance Program, which is not on the admitted list with the WA Office of the Insurance Commissioner. WAC 480-14-250(1) (A) is requesting that we insure through Progressive's United Insurance program. Progressive informed us they are not able to write the policy through United because 4 DEES LOG TRUCKING is based out of Oregon.

US DOT number: 2548607.  
 WA Common Carrier Permit: CC065789

Thank you for your consideration.
