| Contact Person Name | | |
| 509-524-4513 mpuymon@wallawallawa.gov | | |
| Contact Phone Number and Email | | |

Section 3 – Crossing Location

| 1. Existing highway/roadway: 9th st. |
|---|
| 2. Existing railroad: CWW LLC |
| 3. USDOT Crossing No.: 808942N |
| 4. GPS location: 46.05197420762598, -118.34621407670943 |
| 5. Railroad mile post (nearest tenth): 45.4 |
| 6. City: Walla Walla County: Walla Walla |

Section 4 – Highway Information

| 1. Name of highway: 9th st. |
|---|
| 2. Road authority: City of Walla Walla |
| 3. Average annual daily traffic (AADT): 24,000 |
| 4. Number of lanes: 4 |
| 5. Roadway speed: 30 mph |
| 6. Is the crossing part of an established truck route? Ves No |
| 7. If so, trucks are what percent of total daily traffic? 5% |
| 8. Is the crossing part of an established school bus route? Ves No |
| 9. If so, how many school buses travel over the crossing each day? |
| 10. Describe any changes to the information in 1 through 9, above, expected within ten years: |
| None. |
| |

11. What is the available sight distance from the stop bar (or 25 feet from the tracks if no stop bar) on both approaches to the crossing?

+400

12. If the sight distance is less than 400 feet, describe the structures, roadway or track curvature, visual obstacles or other characteristics that limit sight distance.

| Section 5 | – Railroad | Information |
|-----------|------------|-------------|
| | | |

| 1. Railroad company: CWW LLC | | |
|---|--|--|
| 2. Type of railroad at crossing: Common Carrier Logging Industrial | | |
| Passenger Excursion | | |
| 3. Type of tracks at crossing: Main Line Siding or Spur | | |
| 4. Number of tracks at crossing: 1 | | |
| 5. Average daily train traffic, freight: 1-2 per week | | |
| Authorized freight train speed: 10 mph Operated freight train speed: 5-10 mph | | |
| 6. Average daily train traffic, passenger: 0 | | |
| Authorized passenger train speed: 0 Operated passenger train speed: 0 | | |
| 7 Describe any charges to the information in 1 through (shows, supported within ter years) | | |
| 7. Describe any changes to the information in 1 through 6 above, expected within ten years: | | |
| Railroad - Increase in daily train traffic per week to 2-4 per week. | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

Section 6 – Current Warning Devices

Provide a complete description of the warning devices currently located at the crossing (vehicle and pedestrian), including signs, gates, lights, train detection circuitry, and any other warning devices.

PMD-2 Logic Unit 6 - GNB G15 Batteries 6 - GNB G11 Batteries 1 - DTC40 Charger 1 - DTC20 Charger 16 - 12" LED Roundels 2 - Bell

Section 7 – Description of Proposed Changes

Describe in detail the number and type of proposed automatic signals (vehicle and pedestrian), gates, other warning devices, and/or changes to train detection circuitry. (RCW 81.53.271) Please describe any other proposed changes at the crossing, including changes to the crossing surface, signage, pavement markings, etc. If sidewalks are being installed, please provide information on who will maintain them. Attach additional information sheets, if needed.

Would like to replace the "PMD-2 Logic Unit" with a more modern Logic Unit.

The PMD-2 Logic Unit is very old. I have no parts to repair it. When the unit has issues, I have to send parts across the country for repair and take the crossing out of service until the parts are returned. Return time on parts can be over 100 days sometimes.

Section 8 – Illustration of Crossing

Attach a detailed diagram, design drawing, map, or other illustration showing the current and proposed layout of the road, crossing surface, and railway in the vicinity of the crossing, including shoulders, sidewalks, lanes of travel, bike lanes, warning devices, pavement markings and any other applicable crossing conditions.

Section 9 – Traffic Signal Preemption

| Are the railroad signals currently interconnected with a traffic signal(s)? |
|---|
| Yes No |
| Will this project interconnect railroad signals with a traffic signal(s) or modify the existing traffic |
| signal preemption timing? |
| Yes No |
| If yes, attach documentation supporting the proposed traffic signal preemption timing |
| calculations (e.g., TXDOT Guide for Determining Time Requirements for Traffic Signal |
| Preemption at Highway Rail Grade Crossings or similar preemption worksheet/plan), which |
| must be certified by a professional engineer. |
| |

Section 10 – Description of Public Safety Need

Describe and support the public safety need for the proposed changes. (RCW 81.53.261) The proposed changes would give the Signal System a better chance of not malfunctioning. It could be repaired in a timely manner it being a more modern system.

This will keep the Signals operational and less down time for repairs and waiting on parts, increasing the Public safety at these crossings.

Section 11 – Approximate Cost of Installation and Related Work

| 1. Provide the approximate cost of installation and related work for the proposed changes to | | | | |
|--|-----------------------|----------------|----------------------------|-------|
| signals and/or warning devices: | \$14,800 | | | |
| 2. Provide an itemized breakdown of materials, names of the parties contributing to the project, | | | | |
| including labor, and the amount e | ach is contributing: | 1-PMD-4R Unit, | UTC-\$14800 CWW-Labor | |
| <i>3.</i> Provide the amount requested | from the GCPF grant I | program (I | RCW 81.53.271): \$1 | 4,800 |

Section 12 – Approximate Cost of Annual Maintenance

Provide the approximate cost of annual maintenance for the signals and/or warning devices (RCW 81.53.271):

\$1000/year

Section 13 – Cost Apportionment

| If the commission directs the installation of or changes to the warning devices requested in this petition, it will apportion installation and maintenance costs in accordance with the applicable statutes. (RCW 81.53.261-295) |
|---|
| Interested parties may instead enter into an agreement providing for the installation of signals or other warning devices or for the apportionment of the cost of installation and maintenance. (RCW 81.53.261) If the parties to this petition have reached an agreement related to apportionment of costs, please sign here to confirm: |
| Petitioner Signature:Respondent Signature: |

Section 14 – Project Completion Date

| Project completion date: | 6-29-23 |
|--------------------------|---------|
|--------------------------|---------|

Section 15 - Waiver of Hearing by Respondent

Waiver of Hearing

The undersigned represents the Respondent in the petition to modify highway-rail grade crossing warning devices at the following crossing.

USDOT Crossing No. 8 0 8 9 4 2 N

We have investigated the conditions at the crossing. We are satisfied the conditions are the same as desclibed by the Petitioner in this docket. We have reviewed and have no objection to the proposed traffic signal preemption timing calculations as submitted with this petition. We agree the warning devices should be modified and consent to a decision by the commission without a hearing.

Checklist prior to submitting petition:

- ✓ Ensure all petition fields are completed.
- ✓ Ensure parties sign Section 13 regarding any Cost Apportionment agreement, if applicable.
- ✓ Obtain signature on Waiver of Hearing (Section 15). *If respondent fails to sign Waiver, advise UTC staff upon submission.*
- ✓ Attach copies of:
 - Illustration of crossing (described in Section 8).
 - Proposed traffic signal preemption timing calculations, if applicable (described in Section 9), and identification or documentation that the calculations are certified by a professional engineer.
 - Any other relevant documents to support the petition, including but not limited to support of public need, project information, etc.

Submitting the petition: To officially file the petition, send the petition form and supporting documents to records@utc.wa.gov.
