RE: Revised Tariff Submittal, Tariff Number 11, Harold LeMay Enterprises, Inc., dba Pierce County Refuse, G-98.

Dear Ms. Maxwell:

Attached please find revised pages for Tariff Number 11, Harold LeMay Enterprises, Inc., dba Pierce County Refuse, G-98.

This revised tariff filing is to correct a mathematical error that was found in a filing previously approved by the Commission, Docket TG-220548. The revenue requirement approved in that docket was correct, but the agreed upon rates did not generate the required revenue requirement. This filing is to correct the tariff rates, with no change to the original revenue requirement.

With this filing, we respectfully request the Commission approve the attached rate request to properly recover new capital, higher costs of employee wages, benefits, fuel, and general operating costs, as previously agreed to by Staff and the Company in Docket TG-220548.

If these rates are approved by the Washington Utilities and Transportation Commission (Commission) they are intended to become effective on January 1, 2023.

We respectfully request that the Commission grant an exemption from the general rate case work paper rule at WAC 480-07-520 (4), as Staff will rely on the work papers previously audited under TG-220548 for this rate correction.

A rate increase notification letter will be mailed to all customers affected by these proposed changes no later than November 30, 2022.

If you have any questions regarding this filing, please contact me at (360) 695-4923 or via email at Heather.Garland@WasteConnections.com.

Sincerely,

Heather Garland
