**RE: WAC 480-100-178(7)(b) Notice**

Dear Ms. Maxwell:

Pursuant to WAC 480-100-178(7)(b), Puget Sound Energy (“PSE”) hereby provides a notification that billing adjustments longer than six months for three large non-residential customers with an electric optional service have been completed. Subsection (7) of WAC 480-100-178 provides the exceptions that allow utilities to issue corrected bills longer than the six-month period outlined in WAC 480-100-178(5)(a). However, utilities must report to the Washington Utilities and Transportation Commission within sixty days the reasons for any adjustments longer than six months.

The adjustments for the three large non-residential customers are all associated with the billing of the optional electric service Schedule 139 Voluntary Long Term Renewable Energy Purchase Rider. Due to the circumstances of the complexity of the accounts of these specific customers and their election of multiple optional services with special billing configurations, these billing corrections were consistent with the exceptions noted in WAC 480-100-178(7)(b). Due to the complexity of the billing configurations for the Schedule 139 service for these accounts, when PSE set up these accounts for the other optional electric service in September 2021, some of the billing indicators were not automatically carried forward. The billing issues were identified on August 6, 2022. Corrections were completed in the billing system on September 28, 2022, and corrected bills were issued to the customers by September 29, 2022. These corrected bills were paid in full during the months of October and November 2022.
