**YOU MUST RESPOND WITHIN 15 DAYS OF THIS NOTICE**

The Washington Utilities and Transportation Commission (Commission) believes that Lish Excavation Co. (Lish Excavation or Company) violated Revised Code of Washington (RCW) 19.122.055(1)(a) by failing to notify the one-number locate service and causing damage to an underground gas facility.

RCW 19.122.055(1)(a) states, in part, that excavators who fail to notify a one-number locator service and cause damage to an underground gas facility are subject to a civil penalty of not more than \$10,000 for each violation.

Commission staff (Staff) conducted an investigation that included reviewing damage reports, investigation reports, a review of the One Call Center database, and communications with the Company. The documents reviewed identified a natural gas event that involved Lish Excavation damaging a natural gas facility while excavating without a valid locate ticket.

The Commission reviewed findings and recommendations made by Commission staff and hereby notifies you that it is assessing a \$1,000 penalty (Penalty Assessment) against you on the following grounds:

- Alleged Violation:**  
On November 10, 2022, Lish Excavation was excavating at 1812 C St., Deer Park, Washington. While excavating, Lish Excavation workers struck and damaged an underground Avista Corporation (Avista) natural gas facility. The Damage Information Reporting Tool (DIRT) report submitted by Avista on December 7, 2022, indicated that Lish Excavation was excavating without a valid request to locate underground utilities.

2. **Analysis:**

The alleged violation concerns RCW 19.122.055(1)(a), which states, in part, that an excavator must contact the one-number locate center before beginning excavation. On November 10, 2022, Lish Excavation was excavating with a backhoe for electric work when it struck an Avista natural gas line. Staff communicated with Lish Excavation. The Company acknowledged causing the damage but did not provide any further information regarding locate tickets. Staff reviewed the One Call Center database and did not find a locate ticket for Lish Excavation at this address.

The Commission considered the following factors in determining the appropriate penalty amount for the violation:

1. **How serious or harmful the violation is to the public.**

This incident could have been significantly more harmful to Company workers, utility technicians, nearby homeowners, and the public, and could have resulted in severe injury and/or loss of property.

2. **Whether the violation is intentional.**

The violation appears to be due to negligence rather than a lack of knowledge of Washington state's dig law. Lish Excavation has called in four requests to locate over the past 12 months. The Company is aware of the requirement to contact the one-number locate service before beginning excavation.

3. **Whether the company self-reported the violation.**

Lish Excavation did not self-report the violation. The Commission became aware of the violation when Avista filed a DIRT report following the damage incident.

4. **The likelihood of recurrence.**

Lish Excavation's likelihood of recurrence depends on the Company's actions going forward and its willingness to notify the one-number locate service before beginning excavation.

5. **The Company's previous violations and penalties.**

On October 9, 2013, October 15, 2018, and November 4, 2022, the Commission mailed Alleged Violation of Washington Dig Law letters to Lish Excavation. The letters included detailed information about Washington state's underground utility damage prevention act, requirements for submitting utility locate requests before excavating, and the possibility of penalties for each violation. The Commission mailed the letters after receiving a report of damage caused by Lish Excavation that occurred because the Company failed to submit requests to locate underground utilities before excavating.

The Commission has considered these factors and determined that it should penalize Lish Excavation Co. as follows:

- \$1,000 penalty for one violation of RCW 19.122.055(1)(a) with an offer to suspend an \$800 portion of the penalty for one year, and then waive it, subject to the conditions that:

- 1) Company supervisors and field crew responsible for excavation complete Dig Safe Training provided through the National Utility Contractors Association (NUCA) within 90 days of this Penalty Assessment;
- 2) The Company must submit documentation of that attendance to the Commission within 5 days of attending training; and
- 3) The Company must not commit any further violations of RCW 19.122 within 12 months of the date of this Penalty Assessment.

These facts, if proven at a hearing and not rebutted or explained, are sufficient to support the Penalty Assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty through evidence presented at a hearing or in writing. Or, if there is a reason for the violation that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for a hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violation or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.

**You must act within 15 days after receiving this Penalty Assessment** to do one of the following:

- Pay the \$1,000 penalty amount due; or
- Pay \$200 and notify the Commission that you accept the offer to suspend an \$800 portion of the penalty amount subject to the following conditions:
  - Lish Excavation management and the field crew responsible for excavation must complete NUCA Dig Safe Training (<https://utc-9183.quickbase.com/db/bpkt6vndh>) within 90 days of service of this Penalty Assessment; and
  - **The Company must submit documentation of that attendance to the Commission within 5 days of attending training;** and
  - Lish Excavation must not incur any additional violations of RCW 19.122 within 12 months of the date of this Penalty Assessment; or
- Request a hearing to contest the occurrence of the violations; or
- Request mitigation to reduce the amount of the penalty.

Please indicate your selection on the enclosed form and submit it electronically through the Commission's web portal at <https://efiling.utc.wa.gov/Form> **within FIFTEEN (15) days** after you receive this Penalty Assessment.
