CARRIERS' ANNUAL RE-CERTIFICATION ON HIGH COST FUND  
SUPPORT PURSUANT TO WAC 480-123-060, 070, AND 080**

**INLAND TELEPHONE COMPANY - SAC 522423  
DUE JULY 1, 2023**

**ETC ANNUAL REPORT**  
**PER WAC 480-123-070 AND WAC 480-123-080**  
**INLAND TELEPHONE COMPANY - SAC 522423**

ETC ANNUAL REPORT PER WAC 480-123-070 AND WAC 480-123-080  
(Certifications Required by WAC 480-123-060 and 070 enclosed)  
July 1, 2023

Inland Telephone Company (the "Company") hereby submits the following reports in accordance with WAC 480-123-070 and WAC 480-123-080.

1. Report 1: Report on use of funds: WAC 480-123-070(1)(a):

The Company used support from the federal high-cost fund in 2022 as follows:

For 2022, the Company's gross capital expenditures, after any appropriate allocations to its Idaho operations, were approximately \$702,220. The Company's 2022 operating expenses, after any appropriate allocations to its Idaho operations were \$4,875,718, which includes depreciation and amortization expenses of \$1,452,437 and excludes Part 64 adjustments. Recent major projects are enumerated and/or described in the five (5) year forecast and narrative (522423 5 YEAR FORECAST.pdf) supplied for Report 6, WAC 480-123-080(1) and Report 7, WAC 480-123-080(2).

The Company's NECA-1 Report for the collection period 2023 for the calendar year 2022 that was submitted to the National Exchange Carrier Association ("NECA"), is included after the 5 Year Forecast (522423 2022 NECA1.pdf).

2. Report 2: WAC 480-123-070(1)(b): The Company reports that the investments and expenses reported under Report 1, above, benefited the customers as follows:

The customers served by the Company benefited from the use of high-cost fund support by continuing to receive high quality voice and broadband communications services. The projects and benefits are described in the 5 year forecast and narrative (522423 5 YEAR FORECAST.pdf) supplied for Report 6, WAC 480-123-080(1) and Report 7, WAC 480-123-080(2).

Through the expenditure of these funds, the Company was able to continue to provide services at a level that the Company believes meets the intent set forth in 47 U.S.C § 254 of providing quality telecommunications services to customers in the service area for which the Company is designated as an ETC.<sup>1</sup> The Company has made substantial investments over the past several years which allow it to provide quality telecommunications services to its customers in its designated ETC service area. Those expenditures and investments, including those reflected in Report 1 above, generally benefit all customers receiving the federal high-cost fund supported services from the Company within its designated ETC service area. The Company has expanded its network over the past several years so that it is capable of providing access to broadband services throughout the Company's designated ETC service area. The Company offers

---

<sup>1</sup> The term "ETC" is used in the same sense as the term is used in Chapter 480-123 WAC.

services that are comparable to services offered in urban areas at rates that are comparable to rates for such services in urban areas.

3. Report 3: Local Services Outage 2022 Report: WAC 480-123-070(2):

Please see the attached summary, 522423 2022 OUTAGES.

4. Report 4: Report on Failure to Provide Service in 2022: WAC 480-123-070(3):

None.

5. Report 5: Report on Complaints per 1000 Connections: WAC 480-123-070(4):

The Company reports that during calendar year 2022, the Company did not receive from the Federal Communications Commission or the Consumer Protection Division of the Office of the Attorney General of the State of Washington any complaints against the Company concerning the services provided to its customers by the Company that are either subject to the regulatory jurisdiction of the Washington Utilities and Transportation Commission or among the services supported by the federal high-cost fund.<sup>2</sup> The Company did receive from the Consumer Protection Division of the Washington Utilities and Transportation Commission numerous complaints against the Company concerning the outages described in the attached file 522423 2022 OUTAGES.pdf. Except for those that were deemed to not answer the questions in there entirety, all were in the Company's favor.

6. Report 6: Annual Plan: WAC 480-123-080(1):

As they are known to the Company at the date of this Report, the planned investments and expenses related to Washington State for the period January 1, 2023, through December 31, 2023, are projected to be \$860,000 for gross capital expenditures and \$4,952,975 for operating expenses, which includes \$1,452,437 of depreciation expense. Attached is a five year forecast and narrative (522423 5 YEAR FORECAST.pdf). With the exception of depreciation expense created by capital projects, the Company expects that levels of expenses to slightly increase from 2022 levels. However, the effects of inflation and other commonly experienced changes in cost of labor and materials and availability of materials cannot be anticipated. The Company does not anticipate major adjustments in staffing levels for the relevant period.

7. Report 7: Plan of Investments and Expenditures: WAC 480-123-080(2):

As they are known to the Company at the date of this Report, the planned investment and expenses related to Washington State for the period January 1, 2024, through December 31, 2024, are projected to be \$695,000 for gross capital expenditures and \$5,008,471 for

---

<sup>2</sup> The references to the services supported by the federal high-cost fund is to the services designated for support as set forth in 47 C.F.R. §54.101(a).

operating expenses, which includes \$1,452,437 of depreciation expense. The narrative on the attached five (5) year forecast, did not fully spell-out that the projected upgrades should increase bandwidth capacity to our subscribers in order to be in compliance with current Federal Communications Commission standards for broadband; it is implied when moving to fiber-to-the-premise or shortening loop lengths by adding additional VDSL cabinets. With the exception of depreciation expense created by capital projects, the Company expects that levels of expenses to slightly increase from the projected 2023 levels. However, the effects of inflation and other commonly experienced changes in cost of labor and materials and availability of materials cannot be anticipated. The Company does not anticipate major adjustments in staffing levels for the relevant period. Enclosed is a five year forecast and narrative. The Company expects that the continued receipt of federal high-cost support will allow the Company to continue to provide the supported services at rates that are comparable to the rates for such services in urban areas. All customer in the Company's designated ETC service area will benefit from the expected level of support by continuing to have available to them services that are comparable to the telecommunications services offered in urban areas at rates that are comparable to the rates for such services in urban areas.

**AFFIDAVIT CONTAINING CERTIFICATIONS  
PURSUANT TO WAC 480-123-060 AND WAC 480-123-070**

**INLAND TELEPHONE COMPANY - SAC 522423**

**AFFIDAVIT CONTAINING CERTIFICATIONS  
PURSUANT TO WAC 480-123-060 AND WAC 480-123-070**

I, James K. Brooks, being of lawful age, state that I am the Treasurer/Controller of Inland Telephone Company (“Company”), that I am authorized to execute this Affidavit on behalf of the Company, and that the facts set forth in this Affidavit are true to the best of my knowledge, information and belief. On this basis, I hereby certify to the Washington Utilities and Transportation Commission (“Commission”) for use by the Commission in providing the certification to the Federal Communications Commission and Universal Service Administrative Company required by 47 C.F.R. §54.314, as follows:

(1) That the Company in 2022, used and in the coming calendar years will use federal high-cost universal service fund support provided to the Company in the State of Washington only for the provision, maintenance and upgrading of the facilities and services for which the support is intended;

(2) That during the 2022 calendar year, the Company met substantially the applicable service quality standard and consumer protection rules found in WAC 480-123-030(1)(h);

(3) That during the 2022 calendar year, the Company maintained the ability to function in emergency situations under the standard found in WAC 480-123-030(1)(g), as such standard relates to functionality of wireline carriers in emergency situations; and

(4) That during the 2022 calendar year, the Company publicized the availability of its applicable telephone assistance programs in a manner reasonably designed to reach those likely to qualify for service and in a manner which, in the Company’s judgment, included advertisements likely to reach those who are not current customers of the Company within the Company’s designated service area.

I certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.

Dated this 12<sup>th</sup> day of June, 2023, at Roslyn, Washington.

Company: Inland Telephone Company

By:

**522423 5 YEAR FORECAST  
(SUPPORT FOR ETC ANNUAL REPORT)**

**INLAND TELEPHONE COMPANY - SAC 522423**

<b>INLAND TELEPHONE COMPANY</b>								54.313(a)(1)
<b>WASHINGTON OPERATIONS - SAC 522423</b>								
<b>FIVE YEAR FORECAST - NETWORK ADDITIONS</b>								

As they are known to the Company at the date of this Report, the planned investments and forecasted expenses related to Washington operations (Study Area Code 522423) for the period January 1, 2023 through December 31, 2027, are listed below. The Company expects to use all Universal Service Fund support received in order to fund the provisioning, maintenance and services provided over these upgraded facilities as well as existing facilities and to service the debt with the Rural Utility Service created in order to make previous years improvements; improving service quality, coverage and capacity for both voice and broadband services. The Company (SAC 522423) received \$1,844,904 in federal high-cost support/model support for the calendar year ended December 31, 2022; which includes \$574,360 of Connect America Fund ("CAF") Support, -\$6,330 of CAF Inter-carrier Support ("CAF-ICC"), and \$1,276,874 of Alternative Connect America Cost Model II Support ("ACAM II"). The Company expects that the continued receipt of Universal Service Fund support will aid the Company's efforts to continue to provide the supported services at rates that are comparable to the rates for such services in urban areas of which all customers and potential customers in the Company's designated ETC service area will benefit.

**DEWATTO** - The Company plans on replacing existing nodes (carrier cabinets) and adding additional nodes to decrease loop lengths in certain areas of the exchange and increase broadband speeds; upgrading from DSL to VDSL; the Company installed an Adtran TA5000 in 2022 and did not receive the two VDSL cabinets until April of 2023. The TA5000 will make the transition to fiber-to-the-premise ("FTTP") easier in the near future. In 2023, the company has commenced building FTTP in portions of the exchange.

**PRESCOTT** - The Company plans on constructing FTTP when the Uniontown exchange is closer to completion. The Company hopes to commence FTTP construction in 2024; The Company has purchased and installed the Adtran TA5000 to make FTTP possible. The first phase of leveraging the existing copper by upgrading to VDSL was accomplished in 2021; offering faster broadband speeds.

**ROSLYN** - The Company continues to install FTTP to newly formed locations within its FTTP system. The Company is not certain when FTTP to the Morgan Creek area and beyond will happen. There are approximately 200 platted homesites from Morgan Creek to the U.S. Forest boundary; however, there are approximately 30 customers in this area.

**UNIONTOWN** - The Company is currently constructing fiber-to-the-premises ("FTTP") in the outlying areas of the Uniontown exchange. At 12/31/22, there were 21 voice only, 65 voice/data, and 139 data only subscribers on FTTP. Using the 1.3 working loops, there are 167 subscribers remaining to be converted to FTTP.

**GROSS PLANT ADDITIONS - CURRENT ACTUAL AND FUTURE ESTIMATED**

(NOTE: 2022 ACTUAL is after any allocation to Idaho and before any Part 64 allocations; Future Estimates do not include either allocations)
