**Re: WAC 480-100-393-Puget Sound Energy's Electric Service Reliability  
Monitoring and Reporting Plan**

Dear Ms. Maxwell:

Pursuant to WAC 480-100-393, Electric service reliability monitoring and reporting plan, Puget Sound Energy ("PSE") files with the Commission its 3<sup>rd</sup> revision Electric Service Reliability Monitoring and Reporting Plan (the "Plan"). PSE respectfully requests the Commission's review and acceptance of the Plan. WAC 480-100-393(2) requires that any modification to an electric service reliability monitoring and reporting plan must be filed with the Commission prior to the implementation of the modification.

The Plan outlines the electric service reliability section of the combined PSE Service Quality Program and electric service reliability annual report for the performance years 2023 and after. The proposed Plan is designed to meet the specific reporting requirements of WAC 480-100-393 and WAC 480-100-398, Electric service reliability reports. The Plan details the electric service reliability information that PSE will be monitoring and providing in its annual electric service reliability reporting to comply with each section of WAC 480-100-393 and -398. The terms and definitions used throughout the Plan are consistent with WAC 480-100-388, Electric service reliability definitions.
