

## **Commnet Wireless, LLC (Study Area Code 529033)**

ETC ANNUAL REPORT PER WAC 480-123-060 - WAC 480-123-080  
June 30, 2023

Commnet Wireless, LLC (“Commnet” or “Company”) was designated as an Eligible Telecommunications Carrier by Order issued May 20, 2021 in Docket No. UT-210149. Commnet was authorized by the Federal Communications Commission (“FCC”) to receive funding via the Rural Digital Opportunity Fund (“RDOF”) on January 14, 2022. Commnet has been assigned Study Area Code 529033 by the Universal Service Administrative Company.

Commnet hereby submits the following report in accordance with WAC 480-123-060 to WAC 480-123-080.

### 1. Annual Certification – WAC 480-123-160

Through this filing Commnet requests that the Commission recertify the Company as an Eligible Telecommunications Carrier for purposes of receiving high-cost universal service support in 2024. Commnet did receive any high-cost universal service funding but did not provide the supported services in the state of Washington during calendar year 2022. In accordance with WAC 480-123-160, attached hereto as Exhibit A is a certification that all federal high-cost universal service funds received by the company will be used only to provision, maintain and upgrade the facilities and services for which the support is intended.

### 2. Report on use of funds: WAC 480-123-070(1)(a):

Commnet received \$777,600.60 in funding from the high-cost universal service fund during calendar year 2022. Commnet has not deployed services to date, however, the Company will use all high-cost universal service fund support received to fund expenses related to the provisioning, maintenance and upgrading of facilities and services for which the support is intended. Continued receipt of Universal Service Fund support is essential for the Company to deploy the facilities necessary and provide the supported services.

### 3. Benefits to customers from the use of funds: WAC 480-123-070(1)(b):

The Company did not provide supported services during calendar year 2022. Customers in the Company’s RDOF supported area will benefit from high-speed internet and voice options when service is deployed.

### 4. Local Services Outage Report: WAC 480-123-070(2):

The Company did not provide supported services during calendar year 2022. Therefore, it does not have any local service outages to report.

### 5. Report on Failure to Provide Service: WAC 480-123-070(3):

The Company did not provide supported services during calendar year 2022. Therefore, it does not have any unfulfilled service requests to report.

6. Report on Complaints per 1000 Connections: WAC 480-123-070(4):

Company did not provide supported services during calendar year 2022. Therefore, it does not have any customer complaint to report.

7. Certification of Compliance with Service Quality Standards and Consumer Protection Rules: WAC 480-123-070(5):

Company did not provide supported services during calendar year 2022. As demonstrated in its ETC Application, the Company is capable of complying with the applicable service standards and consumer protection rules at such time it begins provisioning the supported services.

8. Certification of Ability to Function in Emergency Situations: WAC 480-123-070(6):

Company did not provide supported services during calendar year 2022. As demonstrated in its ETC Application, the Company will ensure its network is designed to be able to function during emergency situations.

9. Advertising Certification, including Advertisement on Indian Reservations: WAC 480-123-070(7):

Company did not provide supported services during calendar year 2022. At such time the Company provides the supported services, it will advertise or publicize the availability of and charges for the supported services and Lifeline services.

10. Annual Plan: WAC 480-123-080(1):

In calendar year 2024, the Company intends to complete the final network design to deliver the required services utilizing RDOF support. Finalizing the network design will entail completion of an extensive RF analysis and identifying tower locations where the Radio Access Network will be deployed to ensure it can meet the deployment milestones. Company will also begin the collocation and site acquisition process based on the final design and complete the procurement process of equipment given the long lead times.

EXHIBIT A

Commnet Wireless, LLC  
Annual Certification

I Rohan Ranaraja, being of lawful age and duly sworn, state that I serve as Executive Director of Government and Regulatory Affairs for Commnet Wireless, LLC (“Commnet”).

I certify to the Washington Utilities and Transportation Commission (“Commission”) that the following is true and correct to the best of my knowledge:

1. The Commission designated Commnet as an Eligible Telecommunications Carrier (“ETC”) in certain census blocks in the State of Washington by Order issued May 20, 2021 in Docket No. UT-210149;
2. The Company will use all high-cost universal service funds received in the upcoming year (2024) only for the provision, maintenance and upgrading of the facilities and services for which the support is intended;
3. Commnet will provide the supported services required by 47 U.S.C. §214(e) at such time it begins provisioning service;
4. Commnet will comply with the applicable service standards and consumer protection rules at such time it begins provisioning the supported services. WAC 480-123-070(5)
5. Commnet will ensure its network is designed to be able to function during emergency situations. WAC 480-123-070(6)
6. Commnet will advertise or publicize the availability of and charges for the supported services and Lifeline services. WAC 480-123-070(7)
