Olympic Water & Sewer, Inc.

For Commission's Receipt Stamp

WATER SERVICE
RULES AND REGULATIONS

Rule 17 – Discontinuance of Service (cont'd)

In accordance with Engrossed Substitute House Bill 1329 (ESHB 1329) Olympic Water	N
and Sewer Inc. will not disconnect any residential customer (including residents of metered	N
apartment buildings and mobile homes) for nonpayment when the National Weather	N
Service has issued, or has announced it intends to issue a heat-related alert such as an	N
excessive heat warning, a heat advisory, an excessive heat watch, or similar alert for the	N
area in which the residential user's address is located.	N
All customers reside in the 98365 postal zip code and that will be the method used	N
on the National Weather Service web site to search for heat alerts.	N

Rule 18 – Sprinkling and Irrigation

Water used for sprinkling and irrigation must be paid for at the regular prescribed tariff rates for such service. The hours for such use will be as prescribed from time to time by the Utility, subject to protest by any customer affected and reviewed by the Commission. During peak use months (June through September), and at such other times when demand may be high, the Utility may prohibit or limit sprinkling and irrigation to preserve water for domestic consumption.

No person will use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling or irrigation must be stopped immediately when a fire alarm is sounded. Water use may resume three (3) hours after the fire has been extinguished.

Rule 19 – Rates

Rates for water service and supply are those published in the Utility's tariff on file with the Commission. Unless otherwise stated in this tariff, the rates apply to a single service, to one customer at one premise. Water service must be subscribed to on an annual basis. No proration or reduction in billing is allowed unless this tariff proscribes temporary or seasonal rates.

When conditions require that two or more consumers with separate housekeeping establishments occupy the same or separate dwellings, be supplied through *one metered service*, consumers using water through a single connection are considered a single customer and will be charged the base charge as provided by the schedule of rates for the size of meter installed. If the consumption as shown by the meter exceeds the allowance or usage blocks for the size of the meter, the excess consumption charge will be computed at the regular rates for one customer for the size of meter installed.
