

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

**NOTICE OF PENALTIES INCURRED AND DUE
FOR VIOLATIONS OF LAWS AND RULES**

**PENALTY ASSESSMENT: TN-230794
PENALTY AMOUNT: \$400**

HopeSource
606 W 3rd Avenue
Ellensburg, WA 98926

The Washington Utilities and Transportation Commission (Commission) believes HopeSource (HopeSource or Company) violated Washington Administrative Code (WAC) 480-31-100, Equipment - Safety, which adopts Title 49 Code of Federal Regulations (49 C.F.R.) Part 393 – Parts and Accessories Necessary for Safe Operation Part, and WAC 480-31-130, Operation of Motor Vehicles, which adopts 49 C.F.R. Part 391– Qualifications of Drivers.

Revised Code of Washington (RCW) 81.04.405 allows penalties of \$100 for each violation. In the case of an ongoing violation, every day’s continuance is considered a separate and distinct violation.

On September 26, 2023, Commission Motor Carrier Investigator Tracy Coble completed a routine safety investigation of HopeSource and documented the following violations:

- **One violation of 49 C.F.R. § 391.45(a) – Using a driver not medically examined and certified.** HopeSource allowed driver David Bell to operate a motor vehicle without a valid medical certificate.
- **Two violations of 49 C.F.R. § 393.41 – No or defective parking brake system on CMV.** Commission staff (Staff) discovered two motor vehicles operating with a defective parking brake system. These vehicles were placed out-of-service.¹
- **One violation of 49 C.F.R. § 393.62(e) – No or inadequate bus emergency exit marking.** Staff discovered a motor vehicle with an emergency exit not marked. This vehicle was placed out-of-service.²

The Commission considered the following factors in determining the appropriate penalties for these violations:

1. **How serious or harmful the violations are to the public.** The violations noted are serious and potentially harmful to the public. Private, nonprofit transportation providers that: (1) use drivers who are not medically examined and certified, (2) operate motor vehicles in need of repair, and (3) fail to mark emergency exits in motor vehicles, put

their customers and the traveling public at risk. These violations present significant safety concerns.

2. **Whether the violations were intentional.** Considerations include:

- Whether the Company ignored Commission staff's previous technical assistance; and
- Whether there is clear evidence through documentation or other means that shows the Company knew of and failed to correct the violation.

HopeSource began its operations in April of 1966 and has been subject to previous safety investigations conducted by Staff. The Company knew or should have known about these requirements; however, there is no evidence that suggests HopeSource ignored Staff's previous technical assistance.

3. **Whether the Company self-reported the violations.** HopeSource did not self-report these violations.
4. **Whether the Company was cooperative and responsive.** The Company was cooperative throughout the safety investigation.
5. **Whether the Company promptly corrected the violations and remedied the impacts.** HopeSource provided Staff with evidence that it has corrected the violations.
6. **The number of violations.** Staff identified 17 violation types with a total of 49 individual occurrences during its safety investigation of HopeSource. Of those violations, Staff identified three violation types with four individual occurrences that warrant penalties in accordance with the Commission's Enforcement Policy.
7. **The number of customers affected.** HopeSource reported traveling 193,586 miles in 2022. These safety violations presented a public safety risk.
8. **The likelihood of recurrence.** The Company was cooperative throughout the safety investigation and was provided technical assistance with specific remedies to help the Company assess how well its safety management controls support safe operations and how to begin improving its safety performance. The company provided staff with evidence that it corrected the violations. In light of these factors, Staff believes the likelihood of recurrence is low.
9. **The Company's past performance regarding compliance, violations, and penalties.** The Company has no history of penalties for safety violations.
10. **The Company's existing compliance program.** John Raymond, COO, and Keiko Walsh, Program Manager, are responsible for the Company's safety compliance program.

11. **The size of the Company.** The Company employs 39 drivers and operates 19 motor vehicles. The Company reported \$1,262,180 in gross revenue for 2022.

The Commission's Enforcement Policy provides that some Commission requirements are so fundamental to safe operations that the Commission will issue mandatory penalties for each occurrence of a first-time violation.³ The Commission generally will assess penalties by violation category, rather than per occurrence, for first-time violations of those critical regulations that do not meet the requirements for mandatory penalties. The Commission will assess penalties for any equipment violation meeting the Federal Motor Carrier Safety Administration's "out-of-service" criteria and for repeat violations of critical regulations, including each occurrence of a repeat violation.

The Commission has considered these factors and determined that it should penalize HopeSource \$400 (Penalty Assessment), calculated as follows:

- One violation of 49 C.F.R. § 391.45(a) – Using a driver not medically examined and certified. The Commission assesses a penalty of \$100 for this critical-type violation, for a total of \$100.
- Two violations of 49 C.F.R. § 393.41 – No or defective parking brake system on CMV. The Commission assesses a penalty of \$100 for each occurrence of this repeat out-of-service violation, for a total of \$200.
- One violation of 49 C.F.R. § 393.62(e) – No or inadequate bus emergency exit marking. The Commission assesses a penalty of \$100 for this out-of-service violation.

This information, if proven at a hearing and not rebutted or explained, is sufficient to support the Penalty Assessment.

Your penalty is due and payable now. If you believe any or all the violations did not occur, you may deny committing the violation(s) and contest the penalty through evidence presented at a hearing or in writing. Alternatively, if there is a reason for any or all the violations that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violation(s) or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation(s) or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.
