The Washington Utilities and Transportation Commission (Commission) believes that Amaya's Landscaping LLC (Amaya's or Company) violated Revised Code of Washington (RCW) 19.122.055(1)(a) by failing to notify the one-number locate service and caused damage to an underground gas facility.

RCW 19.122.055(1)(a) states, in part, that excavators who fail to notify a one-number locator service and cause damage to an underground gas facility are subject to a civil penalty of not more than \$10,000 for each violation.

Commission staff (Staff) conducted an investigation that included reviewing damage reports, investigation reports, a review of the One Call Center database, and communications with the Company. The documents reviewed identified a natural gas event that involved Amaya's damaging a natural gas facility while excavating without a valid locate ticket.

The Commission reviewed findings and recommendations made by staff and hereby notifies you that it is assessing a \$1,000 penalty (Penalty Assessment) against you on the following grounds:

- Alleged Violation:**
On May 26, 2023, Amaya's was excavating at 5542 S. Oakhurst Place, Seattle, Washington. While excavating, Amaya's workers struck and damaged an underground Puget Sound Energy (PSE) natural gas facility. The Damage Information Reporting Tool (DIRT) report submitted by PSE on July 7, 2023, indicated that Amaya's was excavating without having submitted a valid request to locate underground utilities.
- Analysis:**
The alleged violation concerns RCW 19.122.055(1)(a), which states, in part, that an excavator must contact the one-number locate center before beginning excavation. The GFR (Gas First Response) report submitted by PSE states that on May 26, 2023, Amaya's

was digging to plant flowers when it struck a PSE natural gas line. The report states the line was shallow at only about 6 ½” however, Amaya’s had not called the One Call center for utility locates. On October 18, 2023, staff spoke with Amaya’s, and they admitted to damaging the line and not calling the One Call center. the Company expressed frustration over the shallow depth of the gas line, and that it was only planting shallow plants. It does not feel like it should be penalized for this damage because it was PSE’s line that was too shallow. Amaya’s acknowledged its obligation to call 811 and agreed it should complete the Dig Safe training.

The Commission considered the following factors in determining the appropriate penalty amount for the violation:

1. **How serious or harmful the violation is to the public.**
These incidents could have been significantly more harmful to Company workers, utility technicians, nearby homeowners, and the public, and could have resulted in severe injury and/or loss of property.
2. **Whether the violation is intentional.**
The violation appears to be due to negligence rather than a lack of knowledge of Washington state’s dig law. Over the past 12 months, Amaya’s has submitted one request to the One Call Center for locates. This demonstrates the Company’s knowledge of its requirements and responsibility to contact the one-number locate service before beginning excavation.
3. **Whether the company self-reported the violation.**
Amaya’s did not self-report the violation. The Commission became aware of the violation when PSE filed a DIRT report.
4. **The likelihood of recurrence.**
Amaya’s likelihood of recurrence depends on the Company’s actions going forward and its willingness to notify the one-number locate service every time before beginning excavation.
5. **The Company’s previous violations and penalties.**
On February 25, 2021, the Commission mailed an Alleged Violation of Washington Dig Law letter to Amaya’s. The letter included detailed information about Washington State’s underground utility damage prevention act, requirements for submitting utility locate requests before excavating, and the possibility of penalties for each violation. The Commission mailed the letter after receiving a report of damage caused by Amaya’s on September 15, 2020, that occurred because the Company failed to submit a request to locate underground utilities before excavating.

The Commission has considered these factors and determined that it should penalize Amaya’s as follows:

- \$1,000 penalty for one violation of RCW 19.122.055(1)(a) with an offer to suspend an \$800 portion of the penalty for one year, and then waive it, subject to the conditions that:

- 1) Company supervisors and field crew responsible for excavation complete Dig Safe Training provided through the National Utility Contractors Association (NUCA) within 90 days of this Penalty Assessment;
- 2) The Company must submit documentation of that attendance to the Commission; and
- 3) The Company must not commit any further violations of RCW 19.122 within 12 months of the date of this Penalty Assessment.

These facts, if proven at a hearing and not rebutted or explained, are sufficient to support the Penalty Assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty through evidence presented at a hearing or in writing. Or, if there is a reason for the violation that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for a hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violation or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.

You must act within 15 days after receiving this Penalty Assessment to do one of the following:

- Pay the \$1,000 penalty amount due; or
- Pay \$200 and notify the Commission that you accept the offer to suspend an \$800 portion of the penalty amount subject to the following conditions:
 - Amaya's management and the field crew responsible for excavation must complete NUCA Dig Safe Training (<https://utc-9183.quickbase.com/db/bpkt6vndh>) within 90 days of service of this Penalty Assessment; and
 - **The Company must submit documentation of that attendance to the Commission;** and
 - Amaya's must not incur any additional violations of RCW 19.122 within 12 months of the date of this Penalty Assessment; or
- Request a hearing to contest the occurrence of the violations; or
- Request mitigation to reduce the amount of the penalty.
