WATER SERVICE
RULES AND REGULATIONS

Rule 30 – Water Leak Procedures

(C)

When the Utility determines that a leak has occurred on the customer's property, the Utility will adjust the customer's bill after the customer submits a bill from a plumber, contractor, or other evidence that the leak has been repaired. The Utility must re-calculate the customer's bill for the 'relevant time period.' The 'relevant time period' for this adjustment will not exceed two (2) months for any given leak. The customer's bill will be adjusted by:

1. Billing the 'excess usage' during the relevant period to Block 1 usage rate(s) shown on **Schedule 2:**

Meter Size	Monthly Base Rate	1 st Block (per 1000 gal)	1 st Usage Rate*
3/4 "	38.40	0-5,000	5.52
1 "	64.00	0-5,000	5.52
1.5"	127.90	0-5,000	5.52
2 "	204.80	0-5,000	5.52
4 "	640.00	0-5,000	5.52

2. Crediting the difference between the original bill for the relevant period and the sum of the bills described in Step1.

Note: The credit described in this Rule is available to a customer only once every twenty-four calendar months.
