

**WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION**

**NOTICE OF PENALTIES INCURRED AND DUE  
FOR VIOLATIONS OF LAWS AND RULES**

PENALTY ASSESSMENT: TG-230909  
PENALTY AMOUNT: \$100

Sunrise Disposal, Inc.  
PO BOX 1267  
Okanogan, WA 98840

The Washington Utilities and Transportation Commission (Commission) believes Sunrise Disposal, Inc., (Sunrise Disposal or Company) violated Washington Administrative Code (WAC) 480-70-201, Vehicle and Driver Safety Requirements, which adopts Title 49 Code of Federal Regulations (49 C.F.R.) Part 391 – Qualification of Drivers.

Revised Code of Washington (RCW) 81.04.405 allows penalties of \$100 for each violation. In the case of an ongoing violation, every day's continuance is considered a separate and distinct violation.

On October 26, 2023, Commission Motor Carrier Investigator Arber Demiri completed a routine safety investigation of Sunrise Disposal and documented the following violations:

- **Three violations of 49 C.F.R. § 391.51(b)(2) – Failing to maintain inquiries into driver's driving record in driver's qualification file.** The Company failed to maintain inquiries into the driving records of Kenneth Cyr, Tristan Daniels, and Jeffrey Thomas.

The Commission considered the following factors in determining the appropriate penalties for this violation:

1. **How serious or harmful the violation is to the public.** The violations noted are serious and potentially harmful to the public. Solid waste collection companies that fail to maintain inquiries into drivers' driving records put their customers and the traveling public at risk. These violations present safety concerns.
2. **Whether the violation was intentional.** Considerations include:
  - Whether the Company ignored Commission staff's (Staff) previous technical assistance; and
  - Whether there is clear evidence through documentation or other means that shows the Company knew of and failed to correct the violation.

Sunrise Disposal began its operations in 1980 and has been subject to numerous safety investigations conducted by Staff. The Company knew or should have known about these requirements; however, there is no evidence that suggests Sunrise Disposal ignored Staff's previous technical assistance.

3. **Whether the Company self-reported the violation.** Sunrise Disposal did not self-report this violation.
4. **Whether the Company was cooperative and responsive.** The Company was cooperative throughout the safety investigation.
5. **Whether the Company promptly corrected the violation and remedied the impacts.** Sunrise Disposal has not provided Staff with evidence that it corrected the violations; however, the Company states that moving forward it will maintain inquiries into its drivers' driving records for three years.
6. **The number of violations.** Staff identified 20 violation types with a total of 48 individual occurrences during the routine safety investigation of Sunrise Disposal. Of those violations, Staff identified one violation type with three individual occurrences that warrant a penalty in accordance with the Commission's Enforcement Policy.
7. **The number of customers affected.** Sunrise Disposal reported 10,000 miles traveled in 2022. These safety violations present a public safety risk.
8. **The likelihood of recurrence.** Staff provided technical assistance with specific remedies to help the Company assess how well its safety management controls support safe operations and how to begin improving its safety performance. Sunrise Disposal was cooperative throughout the safety investigation, expressed a desire to come into compliance, and has implemented new procedures to remedy the violations. In light of these factors, Staff believes the likelihood of recurrence is low.
9. **The Company's past performance regarding compliance, violations, and penalties.** On July 7, 2017, Sunrise Disposal was penalized \$200 in Docket TG-170575 for failing to file a complete annual report and pay regulatory fees by the May 1 deadline. The Company paid the penalty in full. The Company has no history of penalties for safety violations.
10. **The Company's existing compliance program.** Dion Gotti, President of Sunrise Disposal, is responsible for the Company's safety compliance program.
11. **The size of the Company.** The Company employs five drivers and operates two commercial motor vehicles. The Company reported \$115,504 in gross revenue in 2022.

The Commission's Enforcement Policy provides that some Commission requirements are so fundamental to safe operations that the Commission will issue mandatory penalties for each occurrence of a first-time violation.<sup>1</sup> The Commission generally will assess penalties by violation category, rather than per occurrence, for first-time violations of those critical regulations that do not meet the requirements for mandatory penalties. The Commission will assess penalties for any

equipment violation meeting the Federal Motor Carrier Safety Administration's "out-of-service" criteria and also for repeat violations of critical regulations, including each occurrence of a repeat violation.

The Commission has considered these factors and determined that it should penalize Sunrise Disposal \$100 (Penalty Assessment), calculated as follows:

- Three violations of 49 C.F.R. § 391.51(b)(2) – Failing to maintain inquiries into driver's driving record in driver's qualification file. The Commission assesses a "per category" penalty of \$100 for these first-time violations.

This information, if proven at a hearing and not rebutted or explained, is sufficient to support the Penalty Assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty through evidence presented at a hearing or in writing. Alternatively, if there is a reason for the violation that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violation or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.

**You must act within 15 days after receiving this notice** to do one of the following:

- Pay the amount due.
- Contest the occurrence of the violation.
- Admit the violation but request mitigation of the penalty amount.

Please indicate your selection on the enclosed form and submit it electronically through the Commission's web portal at <https://efiling.utc.wa.gov/Form> **within FIFTEEN (15) days** after you receive this Penalty Assessment.<sup>2</sup> If you are unable to use the web portal, you may submit it via email to [records@utc.wa.gov](mailto:records@utc.wa.gov). If you are unable to submit the form electronically, you may send a paper copy to the Washington Utilities and Transportation Commission, PO Box 47250, Olympia, Washington 98504-7250.
