NOTICE OF PROPOSED SURCHARGE

LakeLand Village Water Company has asked the Washington Utilities and Transportation Commission for permission for a surcharge to update our Comprehensive Water System Plan* as required by The State of Washington Department of Health. The proposed surcharge is to recover 70% of the \$100,000.00 loan required to complete the plan, plus interest charges and state excise taxes. If approved, the surcharge will begin on February 1, 2024 and end on January 31, 2034 or upon the recovery of 70% of the loan (principal plus interest and excise taxes) whichever comes first.

The surcharge would be \$1.10 per month per customer and reflected on your March 2024 billing.

Surcharge may be paid (within 90 days of effective date) in a one-time payment of \$81.37 per customer and save on interest cost.

The charge for this service is not subject to cancellation or reduction for seasonal or temporary periods. This will be an additional charge on the monthly bill, unless you paid the one-time fee.

*Comprehensive Water System Plan

The principal goal of water system planning is to identify current demands and future needs and apply available resources most efficiently in order to provide high quality service at the lowest cost while protecting the community's health. Planning is a cornerstone of the water system capacity. Water systems with strong technical, managerial and financial capacity are well positioned to provide efficient, high quality service now and into the future.

If you have any questions about the proposed filing and how it will affect you, please call LakeLand Village Water Company at 360.275.2474. The commission has the authority to set final rates that may be either lower or higher than the company's request, depending on the results of the investigation. You can comment on the case by using the "Submit a Comment" feature on the Commission's website at www.utc.wa.gov or by using the contact information below.
