SCHEDULE 63 - NET METERING OPTION - Continued

“Premises” means any residential property, commercial real estate, or lands, owned or leased by a Customer generator within the service area of a single utility.

AVAILABLE:

Net Metering shall be available to eligible Customer Generators who are customers of Avista Utilities on a first-come, first-served basis until the earlier of either: (i) June 30, 2029; or (ii) the first date upon which the cumulative generating capacity of net metering systems equals four percent of the utility's peak demand during 1996. Not less than one-half of the utility's 1996 peak demand available for net metering systems shall be reserved for the cumulative generating capacity attributable to net metering systems that generate renewable energy.

(1) Customer Generator eligibility – To be eligible for net metering, a Customer Generators must use a net metering system as defined above, shall be subject to the interconnection terms and conditions pursuant to WAC 480-108-020, and must sign a Net Metering Interconnection Agreement, included as Attachment A to this tariff.

(T)

(N)

(2) Cost to Customer Generator of metering and interconnection – Customer Generators electing the net metering option shall be interconnected using a standard kilowatt-hour meter capable of registering the flow of electricity in two directions and a production meter to measure total net meter system generation. The costs to the Customer Generator include:

- (A) The Company's basic charge billed under the Customer Generator's applicable standard service Schedules 1, 11, 21, or 25.
- (B) The Company shall not be liable directly or indirectly for permitting or continuing to allow the attachment of a net metering system, or the acts or omissions of a Customer Generator, that causes loss or injury, including death, to a third party.
- (C) Interconnection fees will be charged pursuant to WAC 480-108-030(5).
