CARRIERS' ANNUAL RE-CERTIFICATION ON HIGH COST FUND  
SUPPORT PURSUANT TO WAC 480-123-060, 070, AND 080**

**INLAND TELEPHONE COMPANY - SAC 522423  
DUE JULY 1, 2024**

**ETC ANNUAL REPORT**  
**PER WAC 480-123-070 AND WAC 480-123-080**  
**INLAND TELEPHONE COMPANY - SAC 522423**

ETC ANNUAL REPORT PER WAC 480-123-070 AND WAC 480-123-080  
(Certifications Required by WAC 480-123-060 and 070 enclosed)  
July 1, 2024

Inland Telephone Company (the "Company") hereby submits the following reports in accordance with WAC 480-123-070 and WAC 480-123-080.

1. Report 1: Report on use of funds: WAC 480-123-070(1)(a):

The Company used support from the federal high-cost fund in 2023 as follows:

For 2023, the Company's gross capital expenditures, after any appropriate allocations to its Idaho operations, were approximately \$423,332. The Company's 2023 operating expenses, after any appropriate allocations to its Idaho operations were \$4,823,243, which includes depreciation and amortization expenses of \$1,439,995 (both expense figures exclude Part 64 adjustments). Recent major projects are enumerated and/or described in the five (5) year forecast and narrative (522423 5 YEAR FORECAST.pdf) supplied for Report 6, WAC 480-123-080(1) and Report 7, WAC 480-123-080(2).

The Company's NECA-1 Report for the collection period 2024 for the calendar year 2023 that was submitted to the National Exchange Carrier Association ("NECA"), is included after the 5 Year Forecast (522423 2022 NECA1.pdf).

2. Report 2: WAC 480-123-070(1)(b): The Company reports that the investments and expenses reported under Report 1, above, benefited the customers as follows:

The customers served by the Company benefited from the use of high-cost fund support by continuing to receive high quality voice and broadband communications services. The projects and benefits are described in the 5 year forecast and narrative (522423 5 YEAR FORECAST.pdf) supplied for Report 6, WAC 480-123-080(1) and Report 7, WAC 480-123-080(2).

Through the expenditure of these funds, the Company was able to continue to provide services at a level that the Company believes meets the intent set forth in 47 U.S.C § 254 of providing quality telecommunications services to customers in the service area for which the Company is designated as an ETC.<sup>1</sup> The Company has made substantial investments over the past several years which allow it to provide quality telecommunications services to its customers in its designated ETC service area. Those expenditures and investments, including those reflected in Report 1 above, generally benefit all customers receiving the federal high-cost fund supported services from the Company within its designated ETC service area. The Company has expanded its network over the past several years so that it is capable of providing access to broadband services throughout the Company's designated ETC service area. The Company offers

---

<sup>1</sup> The term "ETC" is used in the same sense as the term is used in Chapter 480-123 WAC.

services that are comparable to services offered in urban areas at rates that are comparable to rates for such services in urban areas.

3. Report 3: Local Services Outage 2023 Report: WAC 480-123-070(2):

Please see the attached summary, 522423 2022 OUTAGES.

4. Report 4: Report on Failure to Provide Service in 2022: WAC 480-123-070(3):

None.

5. Report 5: Report on Complaints per 1000 Connections: WAC 480-123-070(4):

The Company reports that during calendar year 2023, the Company did not receive from the Federal Communications Commission or the Consumer Protection Division of the Office of the Attorney General of the State of Washington any complaints against the Company concerning the services provided to its customers by the Company that are either subject to the regulatory jurisdiction of the Washington Utilities and Transportation Commission or among the services supported by the federal high-cost fund.<sup>2</sup> The Company did receive from the Consumer Protection Division of the Washington Utilities and Transportation Commission numerous complaints against the Company concerning the outage on 12/23/2023 described in the attached file 522423 2023 OUTAGES.pdf, which was eventually resolved in the Company's favor.

6. Report 6: Annual Plan: WAC 480-123-080(1):

As they are known to the Company at the date of this Report, the planned investments and expenses related to Washington State for the period January 1, 2024, through December 31, 2024, are projected to be \$945,000 for gross capital expenditures and \$5,291,682 for operating expenses, which includes \$1,472,300 of depreciation expense. Attached is a five year forecast and narrative (522423 5 YEAR FORECAST.pdf). With the exception of depreciation expense created by capital projects, the Company expects that levels of expenses will slightly increase from 2023 levels. However, the effects of inflation and other commonly experienced changes in cost of labor and materials and availability of materials cannot be anticipated. The Company does not anticipate major adjustments in staffing levels for the relevant period.

7. Report 7: Plan of Investments and Expenditures: WAC 480-123-080(2):

As they are known to the Company at the date of this Report, the planned investment and expenses related to Washington State for the period January 1, 2025, through December 31, 2025, are projected to be \$2,205,000 for gross capital expenditures and \$5,363,184 for operating expenses, which includes \$1,472,300 of depreciation expense. This budget

---

<sup>2</sup> The references to the services supported by the federal high-cost fund is to the services designated for support as set forth in 47 C.F.R. §54.101(a).

is made with the expectation of the Company receiving an RUS Re-Connect loan. The budgeted gross capital expenditures will be substantially less should this not occur. The narrative on the attached five (5) year forecast, did not fully spell-out that the projected upgrades should increase bandwidth capacity to our subscribers in order to be in compliance with current Federal Communications Commission standards for broadband for a Company receiving Enhanced A-CAM or the bandwidth capacity required by the RUS in order to receive a Re-Connect loan. With the exception of depreciation expense created by capital projects, the Company expects that levels of expenses to slightly increase from the projected 2024 levels. However, the effects of inflation and other commonly experienced changes in cost of labor and materials and availability of materials cannot be anticipated. The Company does not anticipate major adjustments in staffing levels for the relevant period. The Company expects that the continued receipt of federal high-cost support will allow the Company to continue to provide the supported services at rates that are comparable to the rates for such services in urban areas. All customer in the Company's designated ETC service area will benefit from the expected level of support by continuing to have available to them services that are comparable to the telecommunications services offered in urban areas at rates that are comparable to the rates for such services in urban areas.

**AFFIDAVIT CONTAINING CERTIFICATIONS  
PURSUANT TO WAC 480-123-060 AND WAC 480-123-070**

**INLAND TELEPHONE COMPANY - SAC 522423**

**AFFIDAVIT CONTAINING CERTIFICATIONS  
PURSUANT TO WAC 480-123-060 AND WAC 480-123-070**

I, James K. Brooks, being of lawful age, state that I am the Treasurer/Controller of Inland Telephone Company (“Company”), that I am authorized to execute this Affidavit on behalf of the Company, and that the facts set forth in this Affidavit are true to the best of my knowledge, information and belief. On this basis, I hereby certify to the Washington Utilities and Transportation Commission (“Commission”) for use by the Commission in providing the certification to the Federal Communications Commission and Universal Service Administrative Company required by 47 C.F.R. §54.314, as follows:

(1) That the Company in 2023, used and in the coming calendar years will use federal high-cost universal service fund support provided to the Company in the State of Washington only for the provision, maintenance and upgrading of the facilities and services for which the support is intended;

(2) That during the 2023 calendar year, the Company met substantially the applicable service quality standard and consumer protection rules found in WAC 480-123-030(1)(h);

(3) That during the 2023 calendar year, the Company maintained the ability to function in emergency situations under the standard found in WAC 480-123-030(1)(g), as such standard relates to functionality of wireline carriers in emergency situations; and

(4) That during the 2023 calendar year, the Company publicized the availability of its applicable telephone assistance programs in a manner reasonably designed to reach those likely to qualify for service and in a manner which, in the Company’s judgment, included advertisements likely to reach those who are not current customers of the Company within the Company’s designated service area.

I certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.

Dated this 18<sup>th</sup> day of June, 2024, at Roslyn, Washington.

Company: Inland Telephone Company

**522423 5 YEAR FORECAST  
(SUPPORT FOR ETC ANNUAL REPORT)**

**INLAND TELEPHONE COMPANY - SAC 522423**

<b>INLAND TELEPHONE COMPANY</b>								54.313(a)(1)
<b>WASHINGTON OPERATIONS - SAC 522423</b>								
<b>FIVE YEAR FORECAST - NETWORK ADDITIONS</b>								

As they are known to the Company at the date of this Report, the planned investments and forecasted expenses related to Washington operations (Study Area Code 522423) for the period January 1, 2024 through December 31, 2028, are listed below. The Company expects to use all Universal Service Fund support received in order to fund the provisioning, maintenance and services provided over these upgraded facilities as well as existing facilities and to service the debt with the Rural Utility Service created in order to make previous years improvements; improving service quality, coverage and capacity for both voice and broadband services. The Company (SAC 522423) received \$1,715,411 in federal high-cost support/model support for the calendar year ended December 31, 2023; which includes \$524,544 of Connect America Fund ("CAF") Support and \$1,190,867 of Alternative Connect America Cost Model II Support ("ACAM II"). The Company expects that the continued receipt of Universal Service Fund support will aid the Company's efforts to continue to provide the supported services at rates that are comparable to the rates for such services in urban areas of which all customers and potential customers in the Company's designated ETC service area will benefit.

**DEWATTO** - The Company plans on replacing existing nodes (carrier cabinets) and adding additional nodes to decrease loop lengths in certain areas of the exchange and increase broadband speeds; leveraging the existing copper by upgrading from DSL to VDSL. The Company installed an Adtran TA5000 in 2022, which is a dual provisioning platform that can perform both VDSL and fiber-to-the-premise ("FTTP"). In 2023, the company has commenced building FTTP infrastructure in portions of the exchange and is continuing in 2024.

**PRESCOTT** - The Company commenced constructing FTTP in 2023, and continues in 2024.

**ROSLYN** - The Company continues to install FTTP to newly formed locations within its FTTP system. The Company is not certain when FTTP to the Morgan Creek area, it is currently planned to occur in 2026, as the Company has placed priority to the Dewatto and Prescott FTTP projects. There are approximately 200 platted homesites from Morgan Creek to the U.S. Forest boundary; however, there are approximately 30 customers in this area.

**UNIONTOWN** - The Company is currently constructing fiber-to-the-premises ("FTTP") in the outlying areas of the Uniontown exchange. At 12/31/23, there were 12 voice only, 88 voice/data, and 175 data only subscribers on FTTP. Using the 1.3 working loops, there are 136 voice only and or voice/data subscribers remaining to be converted to FTTP and 5 data only subscribers.
