**RE: Advice No. 2024-29  
 Puget Sound Energy’s Electric Tariff Revision**

Dear Executive Director and Secretary Killip:

Pursuant to RCW 80.28.060 and WAC 480-80-101 and -105, please find enclosed for filing the following proposed revisions to the WN U-60, tariff for electric service of Puget Sound Energy (“PSE” or the “Company”):

1st Revision	Sheet No. 551-C	Electric Vehicle Non-Residential Charging Products and Services (Continued)
1st Revision	Sheet No. 551-D	Electric Vehicle Non-Residential Charging Products and Services (Continued)

The purpose of this tariff filing is to revise Schedule 551 to remove the workplace and employee charging use-case limitation to better meet the electric vehicle (“EV”) charging needs of non-residential customers. This proposed change will further promote the installation of and access to transportation electrification (“TE”) solutions for non-residential customers throughout PSE’s service areas.

Non-residential customers include, but are not limited to, commercial, industrial, institutional, tribal, and Community-Based Organizations. PSE has received electric vehicle charging products and services applications and inquiries from non-residential customers with mixed EV charging uses, whose core mission is to provide the EV charging amenities to not just their employees but their authorized guests as well. Examples of such use cases include lodging establishments, community centers, municipalities, and more. This revision will enhance PSE’s ability to continue supporting underserved customers, further remove cost barriers to electric vehicle charging equipment installation, and increase equitable access to TE products and services.

Jeff Killip, Executive Director and Secretary
