RE: 2025 Disposal Increase – G-12 Tariff Number 11 for Rabanco Ltd (dba Rabanco Companies, Eastside Disposal, and Rabanco Connections)

Dear Mr. Killip,

Enclosed please find proposed Tariff No. 11 of Rabanco Ltd (dba Rabanco Companies, Eastside Disposal, and Rabanco Connections). The purpose of this filing is to propose new rates that include King County's disposal rate increase with Less than Statutory Notice.

As you may be aware, King County is increasing the per ton rate for disposal from $158.83 to $165.91 effective January 1, 2025. Additionally, King County will charge the haulers a monthly fixed rate based on 2023 annual tons. Therefore, for purposes of this increase and billing, the annual fixed rate has been divided by the reported general rate case (effective May 1, 2024) annual tons to arrive at a fixed rate per ton of $34.51 for Republic customers. The disposal rate per ton and fixed rate per ton have been added together to arrive at the total disposal cost per ton of $200.42 for 2025.

If approved by the Commission, the overall revenue increase as a result of these changes is 3.51% or $167,893 for Commercial and Residential customers. The disposal increase for roll-off customers impacts pass through disposal revenue; there is no change to haul rates for these customers.

The company is requesting LSN to RCW 81.28.050 to allow the customers to be noticed on the first bill mailed after the effective date of January 1, 2025, as stated in WAC 480-70-271 (2).

Finally, we also request that the Commission, under WAC 480-07-370 (b), grant a waiver to the general rate case work paper filing requirements in WAC 480-07-520 (4).

If you have any questions, please call me at (425) 646-2531.

Sincerely,

Rick Waldren
