UTIL. AND TRANSP.
COMMISSION

Good morning,

We, Tyson Fresh Meats Pasco, WA., are requesting a waiver of clearance rule WAC 480-60-050 regarding railroad side clearance.

- 1) Our hose racks at our tank car loading zone are 7' 10" from the centerline of tracks 1 and 2. This is less than the required distance of 8' 6".

We intend to order and upon delivery, install a "No Clearance" sign at the midpoint between tracks 1 and 2 on the approach to our tank loading zone.

Please advise at your earliest convenience

Much appreciated,

Brad E. Anderson
