

**Exhibit B**  
**Roof Top Site**

**Redhook Brewery site (WA126) located in Woodinville, WA:**

- There is presently various equipment located at this site, including GSM, UMTS, e911 and battery back-up.
- While there is additional space for a generator or additional battery equipment, we would need to re-negotiate the lease agreement and coordinate with the brewery any additions as Cingular would need to utilize a crane to lift equipment through an entrance in the roof.
