**GRADE CROSSING PROTECTIVE FUND
2015 – 2017 GRANT APPLICATION
IMPROVEMENTS AT PRIVATE PASSIVE RAILROAD CROSSINGS
SECOND REVISED – DOCKET NO. TR-161009**

The Washington Utilities and Transportation Commission (Commission), through its Grade Crossing Protective Fund (GCPF), provides grants for projects that eliminate or mitigate public safety hazards at railroad crossings and along railroad rights-of-way in Washington State. As part of this emphasis the Commission is also committed to improving safety at private, passively-protected railroad crossings through which crude oil is transported in Washington.

GCPF funds may be used for purchasing stop signs, retro-reflective tape, posts (if required), retro-reflective cross buck signs, and emergency notification system signs, to a maximum of \$250 for each crossing. Under this program, GCPF funds may not be used for labor costs. All installations must comply with the commissions rules in WAC 480-62-270.

To apply for a grant to improve safety at a passive railroad crossing, complete the following information and submit it and attachments to the Commission.

Please be sure to complete the entire form. Incomplete or missing information can delay the grant approval process.
