Subject: 2019 PSE TAG Technical Input – please post and respond on the IRP website

Hello again Irena.

In alignment with my separate letter on the subject of conservation and energy efficiency in buildings, I wish to make the following request.

I understand that PSE has an annual conservation budget of about \$100 million. I ask that PSE assign a significant portion of this budget to offer low interest loans for deep energy efficiency retrofits. My “deep energy efficiency” I mean retrofits that result in energy savings of over 40%.

Please give this request serious consideration.

As a 2019 Puget Sound Energy Technical Advisory Group member, I formally request you post this letter on your 2019 IRP website and provide a written response.

Thank you.

Court Olson
