**RE: UG-190711—NW Natural’s Revised Request to Change the Filing Date of its Integrated Resource Plan**

Northwest Natural Gas Company, dba NW Natural, encloses for filing its revised petition for a temporary exemption from WAC 480-90-238(4). On September 22, 2020, NW Natural filed a petition to delay its next Integrated Resource Plan (IRP). After conferring with Washington Utilities and Transportation Commission Staff, the Company has revised its petition to provide additional clarity and a more detailed timeline with regard to the timing of the Company’s Conservation Potential Assessment, Conservation Plan and IRP. NW Natural continues to request an extension of time to file its IRP from February 26, 2021, to July 29, 2022; the additional enhanced and clarified timeline provided in this revised petition merely includes additional and more specific dates for the filing of draft and final reports.
