RE: *Washington Utilities and Transportation Commission v. Puget Sound Energy, Inc.*,
Dockets UE-111048 and UG-111049 (*consolidated*)

TO ALL PARTIES:

On May 7, 2012, the Washington Utilities and Transportation Commission (Commission) entered Order 08, Order Rejecting Tariff Sheets; Authorizing and Requiring Compliance Filing (Order 08), in the above-referenced docket. Order 08 approved and adopted the Partial Settlement Re: Meter and Billing Performance Standards, filed on February 15, 2012 (Partial Settlement Agreement), which required, among other things, that Puget Sound Energy (PSE or Company) meet certain specified standards for enforcement action related to PSE's meter and billing issues, and file annual Meter and Billing reports on PSE's performance in respect to those standards.

On January 30, 2017, PSE submitted its fourth Meter and Billing Performance Annual Filing for the period January 1, 2016, through December 31, 2016. On May 11, 2017, Commission Staff (Staff) notified the Commission that Staff reviewed the filing and found that the Company continues to fall below the standard set forth in Order 08 for correcting all meters reporting unassigned usage with 24 months. Staff accordingly recommends that PSE continue to submit annual Meter and Billing reports.

The Commission has reviewed the compliance filing and accepts it as meeting the annual reporting requirement of Order 08. Because the Company continues to fail to meet fully the standards set in Order 08, the Commission requires PSE to continue to submit annual Meter and Billing reports.

Sincerely,

STEVEN V. KING
Executive Director and Secretary
