Subject: requested changes to PSE rates and public hearings

[EXTERNAL]

To whomever:

In this time of the highest inflation rate in the past 40 years (9.9%), I urge you to re-evaluate your need to inflate the price of energy. I suggest you freeze all price increases for 3 years: then in the 4th year increase the electric service 1.2% and the natural gas 1.74%; in the 5th year increase the electric service 2.62% and the natural gas 2.19%. At the end of the 5th year, depending on the economy, re submit your outlandish request for double digit increases. You have a responsibility to your customers.

Thank you for reading this
Ronna Cunningham
