Pursuant to WAC § 480-07-355, Nucor Steel Seattle, Inc. (“Nucor”) hereby moves for leave to intervene in the above-referenced proceeding before the Washington Utilities and Transportation Commission (“Commission”). As required by WAC § 480-07-145(2)(d), Nucor has provided this Petition by electronic mail. In support of this Motion, Nucor states as follows:

1. On October 25, 2012, Puget Sound Energy, Inc. (“PSE”) and the NW Energy Coalition (the “Coalition”), collectively referred to as the “Joint Parties,” filed a petition requesting an order authorizing PSE to implement an electric and natural gas decoupling mechanism and to begin recording accounting entries associated with the mechanism, effective November 1, 2012. On March 3, 2013, the Joint Parties filed an amended petition requesting an order authorizing PSE to implement electric and natural gas decoupling mechanisms and to begin recording accounting entries associated with the mechanism effective May 2, 2013.

2. Nucor owns and operates a steel mill in Seattle, Washington, and takes gas transportation service from PSE. Nucor’s full name and primary place of business is:

Nucor Steel Seattle, Inc.
2424 SW Andover
Seattle, Washington 98106-1100

3. As a major transportation customer of PSE, Nucor has a direct interest in these proceedings, and the outcome may have a substantial and direct effect on Nucor. Nucor has not yet determined what, if any, positions it will take on any issues raised, nor what relief it may seek to protect its interests.

4. Nucor's intervention in this proceeding will not broaden the issues.

5. Joint Parties first proposed that decoupling apply to natural gas transportation customers when they filed their amended petition on March 1, 2013. Nucor's energy counsel first became aware of this amendment on March 12, 2013. After careful consideration, Nucor is respectfully submitting this petition at this time.

6. The following persons should be included on the service list in these proceedings, and all communications concerning this matter should be addressed to:
