Assumptions:	<i>Assumes the project accrues AFUDC until it is in service. It is first eligible for rate recovery on an AMA basis in the rate year during which it goes into service.</i>	<i>Assumes project is first eligible for recovery in the first rate case after construction begins. The asset accrues AFUDC until it is included in rates with CWIP in rate base treatment, at which time AFUDC ceases. Agrees to Exh. SEF-21 without Prod O&M and with standard AMA on ADIT.</i>	<i>Assumes the project gets only CWIP in rate base treatment, so accrues no AFUDC, and is first eligible for rate recovery at the beginning of construction.</i>
