Subject: Puget Sound Energy Rate Increase

[EXTERNAL]

Regarding Dockets UE-220066 and UG-220067 -

I would respectfully ask that you deny a rate adjustment to electrical and natural gas rates at this time. Currently homeowners are struggling with recovery from Covid and our advancing recession problems. An "average 15.80% increase" in electric service and an "12.15% increase in natural gas service" is too steep. Please deny this adjustment at this time.

Thank you,
Eleanore Ross
