Dear Alderlake Customers:

As of May 6, 2008 the Washington State Utilities and Transportation Commission has approved the one time flat rate assessment of \$3,224.08 for the required improvement stipulated by the Department of Health for the Alderlake water system.

To complete the financing the Water Company needs to know which customer will be paying cash and which customer will be paying on time for the special assessment.

Enclosed is the financial response survey form with a returned self-addressed envelope. Please return by June 1, 2008.

If you have any questions, please call (206) 282-4200.

Sincerely,

Sondra LeBaron  
Agent
