Docket No. UT-063061

EXHIBIT BJJ-33

TO

REBUTTAL TESTIMONY OF

BONNIE J. JOHNSON

ON BEHALF OF ESCHELON TELECOM, INC.

DECEMBER 4, 2006

Subject: RE: Product Notice: TRRO: GN: TRRO EEL LMC UBL-DS1: Effective 9-1-06
Kim,

Qwest and the CLECs discussed the TRRO and related TRRO PCATs in CMP with Change Request PC102704-1ES. From those discussions it was agreed that until such time that the TRRO related issues were finalized that all of the TRRO processes and issues would be deferred from a CMP perspective. At the point in time when the state commission proceedings have concluded, Qwest will bring PC102704-1ES back to an active status in CMP and will initiate the appropriate process and PCAT updates associated with the existing CMP related documentation at that time.

Subject: Product Notice: TRRO: GN: TRRO PCAT with CSIE Updates: Effective 5-1-06

Kim,

This notice is associated to the overall organizational change that was distributed on March 27, 2006. Please review PROS.03.27.06.F.03801.CSIE_Contact_Information and PROD.03.27.06.F.03803.PROD_PCAT_CSIE_Update.

As agreed to at CMP, the PCATs/Business Procedures associated specifically to TRRO are handled outside the scope of CMP until such time that there is an approved SGAT, which is why the change was noticed as a non-CMP document. As we researched your concern, we determined that we should have included the reference in the notice that was sent through the non-CMP process so the overlying notices were related and we will add that reference as applicable to the TRRO notices in the future.

Jean

Hello Bonnie,

I wanted to clarify that Qwest did send an additional notice on this subject as a result of customer feedback. The notice provided information that the documentation will be made available to the full customer community. Please see the following notice for additional information.
PROS.09.29.05.F.03322.TRRO_USRID_Password.

Because this is a non CMP notice, if you have additional questions please contact your Service Manager.

Thank you,
Cindy Harlan

Eschelon objects to these documents which Qwest calls PCATs. Eschelon objects to Qwest sending the documents as confidential and requiring a password. Eschelon made objections through ICA negotiations, however, Eschelon also wants to make this clear through CMP.

If Qwest desires any such terms in its dealings with Eschelon, Qwest needs to propose them in ICA negotiations.
