

Washington
Docket No. UT-003022 and UT-003040
BCH INF-09-059

INTERVENOR: Washington Bench

REQUEST NO: 059

On June 10, 2002, Qwest filed an illustrative summary of QPAP payments. Please state whether Qwest followed the Commission's 30th and 33rd Supplemental Orders in calculating the payments. Provide an illustrative summary of QPAP payments for the three most current months that reflects the Commission's decisions in the 30th and 33rd Supplemental Orders. Also provide a spreadsheet showing the formula for each QPAP performance measure as was provided in response in Bench Request No. 51.

RESPONSE:

Qwest's June 10, 2002 filing was prepared utilizing the Multistate PAP procedures and thus does not reflect the Commission's 30th and 33rd Supplemental Orders. In response to Bench Request 59, a three-month summary utilizing the Commission's 30th and 33rd Supplemental Orders is included as part of the confidential attachment.

Qwest no longer utilizes Excel spreadsheets to calculate its illustrative summaries. However the new process provides output reports in an Excel spreadsheet format. In order to respond to Bench Request 59, a spreadsheet was prepared mirroring Qwest's June 10th summary calculations and is included in the confidential attachment. The base calculations used to determine the June 10, 2002 filing occurrences are the same as utilized in the three month summary.

To help protect confidentiality, all CLEC names and ID's have been removed from Tier 1 data.
